SKI & MOUNTAIN

In Switzerland it is known that the winter season is much more important rather than the summer season. That's why we wanted to dedicate an edition of the magazine to winter and the most popular winter tourist destinations.

St. Moritz, Andermatt, Zermatt, Megève, combined with the cities of Zurich and Geneva; and a reportage Puglia, for those who like it even in the colder months want to play golf.

On the subject of golf, we have put together some news and introduced our new partners: Hardwood Putter, Starlight Golf and Tourist Golf, where we will participate with our rich lotteries.

Digital Mountain Edition is so named because it will soon be introduced in the new application for Apple phones and can be downloaded for free at the Apple Store „Golf Pleasure & Taste - Immogolf“.

The soul of a super sports car and the characteristic functionality of an SUV: this is the Lamborghini Urus, the first Super Sport Utility Vehicle. With its recognizable DNA, Urus is an authentic Lamborghini vehicle, too, a revolutionary vehicle: extreme dimensions, pure Lamborghini design and outstanding performance make it unique. The unmistakable silhouette of the Urus, whose coupé line is light and dynamic, testifies to its super-sports origins, while its remarkable proportions convey a sense of strength, solidity and safety.

ious renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivate relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box set for the multifaceted spectacle Zurich has to offer.

WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to var-

THE LIVING CIRCLE

The concept „The Living Circle“ thrives on nature and luxury - in the most fascinating places in Switzerland. „The Living Circle“ is not a chain of hotels in the classical sense, but an exclusive selection of incomparable habitats with two hotels, two farms and two exquisite restaurants.

ARRIVE AND COME HOME

The stork is one of two very special houses that make up „The Living Circle“. Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come to-

gether in the stork. Our restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

HOW ZÜRICH MEANS

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be pampered by the exquisite seasonal creations of Chef Cyrille Anizan, against a spectacular mountain backdrop. The recently refurbished Barchetta Bar attracts locals as well as guests from near and far - with freshly roasted coffee and light lunches a day and expertly mixed cocktails in the evening. Finish - or start - the evening in the new Cigar Bar, where connoisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clear-

ly during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the stork's topequipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m²). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend our boardroom (35 m²), the Limmat

room (36 m²) or the Werdmüller room (20 m²). The restaurant La Rôtisserie, the Barchetta Bar and the Cigar Bar can also be rented for events.

A CITY LIKE A HOME

The «stork experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmat is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthaus and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless

exclusive shops, many famous dining establishments and a nightlife scene that is well known across the country.

HAMMAM
 Already over one hundred years ago, our ancestors washed off the everyday dust in the Volkshaus. Today, the Turkish Hammam nourishes the soul in the city bath at the same time. Herbal steam baths and healing chalk wraps not only cleanse the pores deep, they also warm the mind - as well as the relaxation on the navel and the oriental refreshments in the relaxation room afterwards. Our insider tip are the original soap foam massages.

STADTBAD ZÜRICH

Being there, enveloped by comforting warmth. There, where soft lights glow and exotic smells float. Where oriental hospitality of Swiss quality shakes hands. To be there, where the distance is in the home and the home in the distance.

SAUNA

Turks, Russians and Native Americans have known for hundreds of years about the beneficial effects of the sweating ritual. A special treat is the additional massage with birch branches before jumping into the ice cold pool - for detoxification and natural stimulation of the circulation.

SPA-TREATMENTS

Whether deep relaxation, beauty or health: the Hammam & Spa combines selected spa traditions. Classic and oriental massages relax and increase wellbeing. Ayurvedic treatments ensure detoxification and cleansing, thalasso therapies revitalize and tone up with the healing powers of the sea. And for a particularly radiant conclusion, offer our various beauty treatments.

The Dolder Golf Club Zurich was founded in 1907 and it is one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

MAKUMAYU

ALPACA FASHION & LEATHER GOODS

MAKUMAYU is a fashion company founded in 2011 with headquarters in Switzerland, run by the fourth generation of the Palaco family from the Peruvian city of Arequipa.

The family is one of the pioneers in the trade in alpaca wool and began processing and exporting to Europe in the early 20th Century.

The brand is composed accordingly of two central elements of the family history.

MAKU is derived from the name of the village Makusani, which lies at an altitude of more than 4'000 meters above sea level.

located in the Peruvian Andes. In this village, the Palaco family lived to buy quality alpaca wool. The alpaca breeders had to cross a river called MAYU on Quechua. In the 1960s, with the support of the family, a bridge was built in order to ensure a safe crossing for the alpaca breeders.

The company's close ties to the Peruvian highlands and alpaca breeders are also reflected in MAKUMAYU's social commitment and support for local projects.

Interview with Celeste van der Graaf

Fotographer Jeannette Johannsen

Anti-aging Expert & Brand Ambassador
of Swiss Cosmetic

info@swiss-cosmetic.com

- Hi Celeste. You are very well known. Can you explain?

Yes, my name is indeed famous, but behind it there is a lot of work, quality work and discretion which people appreciate very much. I started doing beauty 23 years ago and today I am an antiaging expert who treats all type of people from all over the world. I am also Brand Ambassador for two Swiss Beauty Brands and Make-up Artist on special Events, Catwalks and Movies. I am blessed and happy to have the most beautiful job in the world, to make people beautiful.

- Is it true that you are the make up artist of some VIP's?

Yes, I treat VIP's since many years and most of them lives all over the globe. When they come to Switzerland we meet in their hotel or chalets. Privacy is the crucial point while no one would like to be exposed after an Antiaging Treatment.

- Concerning golf, what will you suggest as body treatment for golfers?

Golfers experience a lot of soreness in the neck and back areas.

Relaxation and Therapeutic massage is one of the most popular and well known treatments for golfers. It is a gentle type of massage that uses long strokes, it is great to improve circulation, ease muscles ache and pain and helps the relaxation. Before this type of massage I suggest anyway to do a scrub soap Back massage.

BEAUTY TIPS FROM

CELESTE VAN DER GRAAF

Here are some beauty tips in case you will use it.

- How do you treat yourself and your skin to make it so smooth and wrinkle free?

Since health is priceless I take good care of myself and take Celergen everyday. *Celergen, Swiss Marine Cell Therapy* is the only Swiss Antiaging solution of the future, it is definitely the next big step for those seeking well being and good health. Our bodies are constantly trying to repair themselves by reproducing and revitalizing cells. The key to the success of Celergen is that it packages proteins in such a way that they easily enter the blood stream and the brain, thereby trigger enhanced cell activity.

- Can you tell us what is your daily skincare routine?

My daily skin treatment is of course to clean my face with *Gentle Wash from Lancome*. I love Lancome because it gives me a fresh feeling. Afterwards I use *Skin Mist Spray* made of Cucumber. This skin mist spray provides important proteins, vitamins and hyaluronic acid. I massage my face a few minutes with *100% Argan Oil* which contains vitamins and protects against free radicals. Of course I also use everyday *Sun-blocker* to guard my skin against pigmentation. Once a week I do a face treatment with *LED Light Therapy* and every three months I do my favourite treatment called the *Mesotherapy*.

How does MATRIX RHYTHM THERAPY works ?

Our cells oscillate rhythmically, provided they are healthy. Is this process disturbed by in any way, so the oscillation slows down and the cells get no longer good nutrition and oxygen. Toxic waste products are not being eliminated fast enough. This process you find in the muscles, bones, cartilage, vascular and nervous tissues.

MATRIX RHYTHM THERAPY stops this deleterious process via a specially shaped resonator. This resonator in the therapy appliance produces mechanical pulsations which will gently and harmoniously induce the cells to accept again their own body analog oscillations. This is particularly effective for the skeletal musculature and the nervous system. Because of this metabolic processes will be back to normal and pain gets reduced in short time.

What can we treat :

- reduction of oedemas
- tension, spasticity, stress in the joint capsules
- reduced mobility after accidents, operations
- chronic pain, tinnitus, carpal tunnel syndrom, fibromyalgia
 - especially migraine or phantom pain
 - epicondylitis (golf or tennis arm)

The beautiful 18 hole / par 72 course, the 685 M.ü.M. can be played with a handicap below 30. Guests are welcome from Monday to Friday. An appointment by telephone, club membership and a valid handicap of maximum 30 is necessary. The Zumikon golf course is equipped with a club house, a driving range and a shop. Elevated tees and greens, sheltered by bunkers and water hazards, are the hallmarks of this golf course. In particular, the height difference provides some challenge to the player.

Andermatt

ANDERMATT - The attractive year-round destination.

A house in the mountains can not ignore a ski area up to expectations nearby, kilometers of slopes where you can have fun going down the snowy slopes with skis or snowboarding on your feet. That's why Andermatt is turning into a fascinating and exclusive tourist destination ready to welcome thousands of visitors all year round, and has become the largest ski resort in Central Switzerland, with its 120 kilometers of slopes located in a snow covered region sure.

Apartments with hotel service from Radisson Blu

The Gotthard Residences will be inaugurated by Christmas. In a new independent building there will be about 100 units ranging from practical studios to spacious apartments with multiple rooms, up to luxurious penthouses. The owners can take advantage of the rates reserved for them in the restaurants, in the fitness and wellness center, on the golf course or on the ski slopes. Thanks to a solution com-

parable to the membership of an exclusive club, residence owners enjoy many other advantages such as preferential booking process management, invitation to particular events and much more. So your apartment becomes a real place of good alpine retreat with a dedicated service.

For the first time, starting this winter season, it will be possible to ski up to Sedrun and return to Andermatt, always on skis. It's the big news of the winter of 2018-19 which is already enjoying a lot of interest among fans all over Europe, ready to come and discover the new slopes built on slopes so far unexplored. This was possible thanks to the construction of ten plants (four new, five replaced and one renovated). At the same time, artificial snow-making systems, runways and restaurants were also built. The new SkiArena Andermatt-Sedrun has in fact become the largest

ski resort in Central Switzerland and, thanks to its variety and guaranteed snow cover, is one of the most interesting in Switzerland. Ambitious skiers find their ideal terrain on the Gemsstock, while the Nätschen-Gütsch with its sunny slopes attracts families and passionate skiers alike. It is no coincidence that the magazine Fit for Fun has elected the SkiArena Andermatt-Sedrun best ski resort in the Alps.

A golf course that harmoniously adapts to the natural terrain and offers exciting and challenging sports. A golf course that turns golf into an adventure in the midst of an impressive mountain world.

The 18-hole, par 72 championship golf course of Andermatt Swiss Alps is located in the beautiful Urseren valley between the mountain villages of Andermatt and Hospental - surrounded by mountains and the Reuss. The course offers a first-class, high-alpine golf experience for both enthusiastic amateur golfers and ambitious tournament players.

Golfing at 1700 meters above sea level in a breathtaking Alpine panorama and in one of the most beautiful high-altitude valleys out there - golfing on a historic golf course - that is what being a member of Switzerland's oldest golf club is like: The Engadine Golf Club.

The Engadine Golf Club was founded in 1893 and is thus the oldest golf club in Switzerland. With over 1300 members, it is also one of the largest golf clubs in Switzerland and offers its members the unique opportunity to play golf on two excellent golf courses in the Engadine: the 18-hole championship course in Samedan and the 18-hole championship course in Zuoz-Madulain. The extensive tournament calendar also offers the right thing for any taste and to compete with members and guests.

Zermatt

ZERMATT - MATTERHORN THE ABSOLUTELY SNOW-SAFE WINTER DESTINATION.

Photograph: © Pascal Geurtschen

The snow sports destination Zermatt - Matterhorn is one of the places you must have seen once in your life. 360 km of slopes and a breathtaking mountain panorama await the snow sports enthusiasts. On the Matterhorn meet skiers, connoisseurs and alpinists.

The best mountaineers also climb the Matterhorn (4,478 meters above sea level) in winter. Even today, the story of the first-timers around Edward Whymper fascinates. In 1865 he managed to get to the top of the Mountain of Mountains.

Guests can easily reach the center of the Alpendorf by train. Zermatt has always been car-free. Here you go on foot, use the horse-drawn carriage or the electric taxis, which passengers and luggage drive through the narrow streets.

Photograph: © Pascal Geurtschen

ONCE ZERMATT - ALWAYS ZERMATT

High-class gastronomy awaits guests in the village restaurants and hotels: 17 restaurants combine a total of 242 Gault Millau points in the gastronomic guide Gault/Millau Switzerland, the country's most popular gourmet guide. More than 70 percent of Zermatt's hotels and restaurants are family-run, they are self-confidently living their tradition and offer their guests, including up to 80-percent regulars, high-quality service. Newly built hotels, but also houses with history, show the highest standard of construction. If you want to go shopping and enjoy shopping, you can stroll along Bahnhofstrasse in peace and take a close look at the brand stores. In the evenings, guests mix with locals in the many bars and dancing, where the night turns into day.

ZERMATT - TÄSCH - RANDA IN WINTER

The villages at the foot of the Matterhorn are characterized by the alpine landscape. 360 kilometers of slopes at altitudes between 1,620 and 3,883 meters in Switzerland and Italy lure you to snow-sure and unbounded snow sports. 70 percent of the ski area is on glaciers or snowy. The snowpark makes the hearts of freestylers and snowboarders beat faster. In addition to the slopes, the teams of over 50 mountain restaurants spoil their guests on the promising sun terraces. The Zermatt mountain gastronomy is legendary.

- You are a Genius! Since when you have this inner magic?

Thanks, but genius is a very high definition !!! I started as a child to create spaces for my three sisters in our home. That was the moment I fell in love with creating spaces and transporting feelings to people over the way...

- Your ideas to reality: can you provide some examples?

Since I was a little child my desire was to realize my ideas using tools that were around me... I always liked to recycle things and give them a new history or live.

- What do you consider your craziest idea?

The competition I won in 2007 for an Architectural Solution on top of the little Matterhorn...

A hotel project with artificial oxygen like in Space - with a platform on top of the mountain that goes up to 4000m - the highest building in Switzerland on top of the highest place in Europe that can be reached with a cable car!!!

Geneva International Motor Show 2019: Registrations are now open!

The 89th Geneva International Motor Show is open to new ideas: The regulations for the 2019 Motor Show have been made more flexible. Participants from all domains of individual transportation can now inscribe. In addition, the Motor Show will better respond to the needs of both exhibitors and visitors and will put the emphasis on the future trends for the automobile industry. Inscriptions for interested exhibitors will be open since May 1 to July 1, 2018. The 89th Geneva International Motor Show will take place from March 7-17, 2019 at Palexpo in Geneva.

The world of individual transportation is changing: manufacturers and suppliers must come to grips more and more the questions regarding the electrification of vehicles and connected mobility, driverless vehicles, packages of digital services or transportation services. For these reasons the Organising Committee of the Motor show have reviewed its General Regulations and will adapt a number of improvements for the Geneva International Motor Show 2019. The 2018 Geneva International Motor Show confirmed once again its importance as its exhibition halls were full and with the presentation of 157 World and European Premiers. More than 660,000 visitors from all over the world were registered during the 11 public days. The highlights of this year's Motor Show can be found at the official website: www.gims.swiss.

This magnificent golf course with a fantastic view of Lake Geneva is located on a hill in Cologny, just a few kilometers from the city of Geneva. The topography is hilly and the fairways are very different. The complex - designed by the famous Robert Trent Jones - is characterized by undulating green and bunker, especially hole 17, which leads to the end on a hill to an idyllic small lake.

Megève

Le M de Megève: A luxury hotel in Megève

Authentic Savoyard Chalet 5 star Hotel & Spa

The 5* Le M de Megève is a contemporary and authentic top class chalet and a member of Small Luxury Hotels of the World™ (SLH) which has an unrivalled portfolio of some of the world's finest small

luxury independent hotels. Located in the centre of the village, just 100 m from the Chamois ski lifts, Le M de Megève is an exceptional place which redefines the way to live the present moment.

Hedonistic and sensual delight, discover this five star luxury hidden in the heart of a legendary village...

More than just an hotel, Le M de Megève is a luxurious contemporary and authentic mountain chalet where personal service is at the heart of its philosophy.

Jean-noël Picot, the architect from Megève, has brilliantly taken on the challenge of Le M de Megève's project: a successful gamble to propose a contemporary extension to the 1980's building by coordinating its renovation and refurbishing. With a maximum height to respect, the buildings have been carved into the rock with light shafts. With this work, Jean-Noël Picot has made a demonstration of his idea of architecture adapted to mountains with a focus on the following points:

Assigned to Alain Perrier, the interior decoration contributes to the spirit of the place. This Savoyard interior architect falls in love with a project and likes to mix styles, materials and different connotations „I like to learn from the past to find inspiration for a place, recreate the volumes and look for appropriate innovative concepts for the different areas with a touch of the unusual.“ explains Alain Perrier.

The Savoyard tradition married with a contemporary style is present in each room or suite in Le M de Megève: light colored wood, stone, Bonneval fabric from Arpin made in Savoie, all with luxurious amenities. Each room or suite has its own private balcony with spectacular views over the Village or over the hotel's interior courtyard.

DINING

Different dining areas for enjoyable moments for hotel guests and particularly for clients from outside the hotel.

LES GRANDS CRUS DE FONDUES

Guests are invited to create their very own personalised cheese fondue, with the help of Le M hotel's "cheese expert" or "fromager", Thomas Lecomte. Choosing from the region's best cheeses, all hand-selected by an "artisan affineur", diners can select any blend they desire and are invited to pair their dish with bread, vegetables or fruits (including pineapples or raspberries) for a creative mixture of flavours.

LE BISTROT DU M

This winter, Le Bistrot du M is offering a new daily lunch special called the "Pot of the Day", as well as a new children's menu. Whilst the "Pot of the Day" is only available for lunch at the Bistrot, latecomers can enjoy it in the evening in their rooms, should they wish to order room service.

During the evening, Le Bistrot du M offers a variety of grilled meats, cooked on the restaurant's new Rotisserie spit.

THE BALNEO AND SPA

After a day on the slopes, dive into a world of pleasure.

Located in the heart of the hotel, the Balneo area consists of a pool (which is equipped with a countercurrent system), a fitness area, the Jacuzzi, the sauna and the rock-carved Hammam, inspired by the local architecture, which subtly blends wood and stone.

Le M's Spa has chosen the brand Cinq Mondes, as it combines the beneficial effects of the latest Phyto-Aromatics to its cosmetics. Cinq Mondes offers a large choice of treatments inspired by worldwide beauty rituals. (Rituels de Beauté du Monde©). Since its creation, Cinq Mondes is a pioneer in the domain of elaborating free-petrochemicals, free-silicone and free-parabens formulæ. It is also one of the first brands to commit itself to a strict laboratory charter with the Natural Laboratory by Guideline.

The Mont d'Arbois Golf Course is the setting for numerous amateur and professional competitions. The Winter Golf Cup is an event in its own right since, at the height of winter, the snow-covered course is specially prepared for an exceptional competition.

Spread over some 50 hectares, the Mont d'Arbois golf course has, over the years, become a leading name in mountain golfing offering a top quality course and a beautiful location. Situated on a plateau at 1320 metres, you could easily think you were on a plain thanks to its even elevation that enables players to focus all of their energy on their swing. Not to be missed are the unique observation points linking the Col de Véry to the Mont Joly mountain chain.

STARLIGHT *golf*

Starlight Golf is an amazing, unique and innovative concept where participants by night on a driving range have fun aiming at lighting interactive targets with phosphorescent balls.

Organizing several events mainly in Switzerland, neighboring France and today in Italy, for corporate companies (like ABB, ALPIQ, VIFOR Pharma) during private or opened events (like the last edition of „La Golf Night in Crans Montana“).

TCO Golf Events designs, builds and markets the Starlight event product to individuals or entities who wish to use it in their public or private manifestations.

Its offer is based on 3 main targets:

- Players in the professional golf world such as golf directors, federations and organizers of golf events (at tournaments, Opens or Open days).
- With the brands and advertisers by

offering them a promotional space to accompany them in carrying out their PR operations and launching products on the market.

- Companies and their committee to suggest innovating incentives and team building activities around the values of golf within the framework of their corporate events.

Starlight Golf format is different from a classic 18 holes golf tournament or competition played during the day. At Starlight Golf events we guarantee to sponsors an exposure time of their brand multiplied by 16 times and contact with a high profile of people during the whole event all in the same place.

Partnering with luxury event agency Elya Events, we offer prestigious services of organization and logistics of the Starlight Golf event, with golf courses and hotel partners.

ITALIAN WOOD PUTTERS

100% ARTISAN MADE
ONLY THE BEST WOODS
COMPLETELY CUSTOMIZABLE
HANDMADE IN ITALY

HARDWOOD PUTTERS was born in Italy from the idea of joining the world of golf with design carpentry. Specifically, the intention is to create a range of putters that are not only functional and in line with the specific R & A and USGA, but also small objects of art. The materials used are of the highest quality and the very special weight distribution, combined with a deliberately vintage design, guarantee the customer to have in his hands a unique and extremely effective product on the green. Wood, in Hardwood Putters, is therefore not only synonymous with nature, history and return to the past, but also and above all of effectiveness.

WHY CHOOSE HARDWOOD PUTTERS:

- **Innovative technology**
The wood provides a softer impact on the ball and greater control of the trajectory.
- **The greater lightness** of the wood compared to the metal allows a greater freedom in the distribution of weight, and to act in such a significant way on the overall balancing of the head. All this allows to increase the hot spot from a few millimeters of a normal putter to over

via F. Barbieri 6/a Bologna, Italy

2 cm wide, forgiving in part the error.

- **A tailored suit**
It is not the customer who has to adapt but, on the contrary, it will be the customer to choose all the features he wants his putters. A custom-made suit, therefore, from the type of shaft, to the weight, to the woods used, to the inlays, etc.

- **Each putter is a unique piece**
Great care for every detail and request give the opportunity to have in your hands a unique and exclusive product.

- **It is completely handmade in Italy**
Our philosophy is to give the customer the best, and do it without compromise. The product is therefore made entirely by hand in every phase, without the aid of numerical control machines. An artisanal product in the true sense of the term.

- **An unmatched look**
The solid wood used comes from all over the world and gives the putter a unique appearance and an inimitable color.

Trichological surgery has made great strides in recent years: **the F.U.E. (Follicular Unit Extraction)** allows to obtain follicular units without leaving any visible sign to the naked eye.

This minimally invasive method consists in withdrawing from the occipital area (donor area) the individual bulbs that are re-implanted in turn in the affected area (receiving area) of the subject.

The results are totally natural with hair growing stronger than before in areas where they were absent; in fact, unlike the others, the hair taken from the back of the neck to be replanted is not affected by the action of androgens that determine its fall.

Precisely for this reason the results obtained with the autotransplant can be defined as **permanent**. The F.U.E. technique it is minimally invasive, allowing to resume **normal activities** just a **few days** after **the operation**.

To get the best possible result it is essential to rely on the experts in the field. **Istituto Helvetico Sanders**, currently one of the main reference networks in Europe, puts at your disposal **over 100 hair restoration specialists** (surgeons, health assistants and biologists), **state-of-the-art facilities and periodic checks**, directly at your city's premises.

Every golfer's paradise has 18 holes and is green. If you add to this a boundless view of the sea from each hole then, the gaming experience will be even more satisfying. Designed by architect Andy Hagggar according to the highest USGA standards, the San Domenico Golf is a magnificent Mediterranean route of more than 6300 meters with par 72 that winds along the picturesque Adriatic coast.

Its strategic proximity to the sea further increases the challenge thanks to the presence of winds that depending on the hole play as allies or opponents in the field. The route is perfectly integrated into the natural Apulian context: enriched with olive trees of rare beauty and dotted with the colors and scents of the typical Mediterranean vegetation such as thyme, rosemary and sage. Even the choice of turf is studied on grass: the Bermuda for fairways, the festoon for the rough, while the greens have been used the classic variety pencecross. A fast surface combined with not easy to tame slopes and strategic bunkers will offer all players the perfect terrain for one of the most challenging golf challenges.

What is the meaning of Poliantes?

POLIANTES was born from the overwhelming need of the creator Spanish Livia, to research and looking for the exquisite, beautiful one-of-a-kind of luxury and textiles. Inspired by Polianthes Tuberosa, a rare and narcotic flower whose fragrance spreads in the night before sunrise.

Due to her travel, she learnt many languages including English, Urdu and Japanese; and she started to be interested in fabrics made with lotus flowers, silks woven by the fast hands of women, gorgeous flax, soft Egyptian cotton, flavors and fragrances that spread lightly and insistently.

What inspires you? What is your ideal muse?

My ideal muse is the Woman in her purest essence: extremely feminine, independent and proud, who believes in her abilities and loves the ephemeral caress of natural fabrics on her skin and who then chooses POLIANTES as an expression of her style. A woman capable of creating her own journey, whether she is a full-time manager or mother. To create the POLIANTES capsule collections, deliberately limited edition, I look for inspiration in the big cities, observing people walking, living their own lives.

What projects do you have for 2019?

2019 will be a year full of new adventures. POLIANTES has managed to find a niche market for its products, loved by the countries of the luxury market in the world and by the beautiful women famous for their political and social commitment that love the sale of private collections.

POLIANTES has many commitments, but above all there is the intent to remain limited edition to offer the best craftsmanship and elegance of Made in Italy.
