Our cuisine is directly inspired by traditional Italian dishes where sharing and conviviality are at the center of the meal. A simple and generous cuisine with family recipes and selected products from the best producers.

Marie-Louise of Austria, nicknamed the Duchess of Parma, is the main inspiration of the brand DUCHESSA. This emblematic character of Italian culture, loved, cultivated and generous with his people, still guides our concept today.

L.RAPHAEL Genève, the world-class luxury beauty brand offers the most effective cosmetics treatments for the skin as well as exclusive technological innovations that have catapulted L.RAPHAEL Genève at the forefront of anti-aging skincare.

The Temple of Beauty L.RAPHAEL is the flagship of the swiss beauty brand with 6 floors at 15 rue du Rhône, Geneva located since the 2005 launch in the most prestigious shopping street in Geneva.

Completely dedicated to appearance and to well-being, L.RAPHAEL offers 10 treatment rooms, 2 consultations rooms, a room to practice yoga and Pilates, a bronzing room and a beautiful hair salon on the 1st floor. Everything is coordinated to create a unique experience at every level. The customers are accompanied at all times during

their customized journey, knowing that they can count on the expertise of the L.RAPHAEL team.

The building has been undergoing a major renovation to instill a more glamorous and vibrant style to the flagship brand. The DNA of the house has been preserved but the classic style has been turned into a more sexy and modern one. The new Design has been conceived by Alexandra de Garidel, a renowned Swiss-French designer, well known for her breathtaking interiors and sense of daring.

Also, L.RAPHAEL is also announcing its newest series of treatments for teens and young adults.

The L.RAPHAEL Young Program provides solutions to a young person's common concerns, which may include: weight, acne,

nutritional issues, excessive hair such as eyebrows, arms and underarms, legs, and much more.

The program will work with participants through a more holistic point-of-view that focuses on themselves as individuals, inside and out. L.RAPHAEL's unique program YOUNGTEEN is implementing proprietary treatments, including the Anti-Acne, advanced slimming solutions, laser hair removal (best practices after 30 years of experience) and the home care line for continuous care.

The program is based on the fact that teenagers and young adults are in the most important growth phase of their lives. L.RAPHAEL's experts instruct each teenager on the optimal and personal path for him/her to be beautiful and healthy (rather than just «copy» celebs), and they are received both individually and in groups.

The trigger for building the new program was a personal experience of L.RAPHAEL'S

Founder, Mrs. Ronit Raphael: «My interest in skin care grew from a difficult personal experience. At the age of 18, I suffered from minor acne, and tried a chemical peel that seriously damaged my skin and left me with second-degree burns. I spent years meeting with dermatologists all over the world to learn everything I could about skin care... Now, when I watch my 3 children growing, and challenge body concerns such as acne, nutritional issues and excessive hair, it drives me to develop more and more effective solutions that can help them, and all other teenagers around the world.» With 30 years of activity, the L.RAPHAEL team has gained experience with young age groups, and developed an approach that also helps young guests benefit from the program for the long term, after they return home.

ious renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivated relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box seat for the multifaceted spectacle Zurich has to offer.

WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to var-

THE LIVING CIRCLE

The concept „The Living Circle“ thrives on nature and luxury - in the most fascinating places in Switzerland. „The Living Circle“ is not a chain of hotels in the classical sense, but an exclusive selection of incomparable habitats with two hotels, two farms and two exquisite restaurants.

ARRIVE AND COME HOME

The stork is one of two very special houses that make up „The Living Circle“. Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come to-

gether in the stork. Our restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

HOW ZÜRICH MEANS

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be pampered by the exquisite seasonal creations of Chef Cyrille Anizan, against a spectacular mountain backdrop. The recently refurbished Barchetta Bar attracts locals as well as guests from near and far - with freshly roasted coffee and light lunches a day and expertly mixed cocktails in the evening. Finish - or start - the evening in the new Cigar Bar, where connoisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clear-

ly during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the stork's top-equipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m²). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend our boardroom (35 m²), the Limmat

room (36 m²) or the Werdmüller room (20 m²). The restaurant La Rôtisserie, the Barchetta Bar and the Cigar Bar can also be rented for events.

A CITY LIKE A HOME

The «stork experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmat is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthaus and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless

exclusive shops, many famous dining establishments and a nightlife scene that is well known across the country.

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

BETTER TO

True love moves. The passionate restaurateur from Zurich, Mike Gut, has long fought for the pearl of Lake Zurich. Now everything was fine. Esther Bühler has handed over the restaurant Seehaus to the creative hands of Mike Gut. The new concept is already available. The plans are ambitious. At the beginning of 2019 the curtain will fall.

«The Seehaus is a real rarity as a location. However, the great location on the lake alone does not guarantee success. The restaurant, with its eventful history, deserves a concept of character that is as convincing in terms of cuisine, service and decor. For this, in addition to a vision, an energetic team is needed» white good. The 51-year-old is

one of the more experienced restaurateurs in Zurich and is a partner in the «Razzia» and the «Fischstube» on the Zürichhorn.

Patrick Fischbacher, Chef de Cuisine

Refined with a breeze of punk: the menu offers a renaissance of classic and lakehouse meets Asia. From the simple to create something great, that's our motto. The team around the young chef Patrick Fischbacher is full of ideas. For example, they have been working on the perfect lake house vinaigrette for weeks.

For the cigar lovers a Smoker's Lounge is planned. For the sundowner there is an outdoor bar in summer. Even visually will soon not much remember the current lake house. The reopening of the new restaurant Seehaus in Herrliberg is scheduled for the beginning of February. Until then, all interior design changes have been put into action and guests can enjoy the dishes of the new winter menu. In spring, Mike Gut and his team will introduce the restaurant with its lakeside terrace.

WINE-GROWING IN ACCORDANCE WITH NATURE

The Cave du Chevalier Bayard offers a wide range of authentic, naturally produced quality wines.

ABOUT US

As a third-generation family business, we continue the family tradition of our grandfather Jeremiah Bayard and bring in new know-how.

LOCATION

Varen is located on a terrace above the Pfynwald in the park Pfyn / Finges. This unique landscape is characterized by plenty of sun, low rainfall and barren, calcareous soil. The orientation and slope of the plots on the southern slope favored the formation of a deep root system, which allows the production of complex wines.

HISTORY

The „Cave du Chevalier Bayard“ was founded in 1975. The majority of the founding members are children of Jeremiah Bayard, who continued the tradition of their father's - encaveur. In the big family it is a matter of course to work for the company and to honor the family heritage. Cave Chevalier Bayard engages in golf and is wine sponsor of the Swiss Golf Pro Supporter Club tournaments.

Spend pleasurable hours in a cozy atmosphere in our Carnotzet and join us on an expedition of our wine palette in red and white. Welcome!

MY CLOTHES ARE HYPNOTIC

Launched in 2016, the YPNOSIA couture label is still a secret. The Zurich designer Fulvia Staub-Mastellone tells how in Milan from Balinese ikat fabrics become exclusive dream pieces.

Fulvia What's special about your collection?

Each dress has an absolutely unique cut, fabric and color, made with a single hand woven Ikat. I personally chose all the fabrics of the small Balinese weaves. The traditional models of ikat are inspired by dreams and spiritual connections with the gods and have been handed down from father to son for generations. The colors are very special. For example, in Bali, the warm turmeric yellow combined with the bright peaceful green and the opaque papaya red - there are no family members, but they are still very harmonious. When I discovered these beautiful fabrics in Bali, I was so fascinated that I soon designed my first collection.

What inspired you to design?

I was inspired by the Italian ease and style of the Dolce Vita of the 50s and 60s when women with their clothes deliberately demonstrated their femininity and love for life expressed. Important style elements are the round shoulders and the areas of the hips, the thin waist and the upper parts that embrace the body. I would like the quality of my collection to meet the highest standards and therefore I have them produce in a small couture studio on the outskirts of Milan on the principles of Alta Sartoria with great attention to the details of craftsmanship.

Your Label is called Yynosia. Where does this name come from?

Original Ikat fabrics are very precious thanks to the elaborate dyeing and weaving technique. On a single cloth it is often worked

Prêt-à-porter custom-made

Are you looking for an absolutely unique favorite dress? In Yynosia showroom in Zurich you will find selected prêt-à-porter single models, in one size (36 or 38) and a selection of ikat fabrics in silk or cotton to create together with the designer Your tailored YPNOSIA dress, Showroom / Sales : Gehrenholz 5H, 8055 Zürich.

Appointments via www.yynosia.com
or 079 207 31 75

up to a month. Because of the handcraft Ikat design is always a little blurred. For this reason it is better known. This hypnotic effect gave the name to my label.

And what woman do you make clothes for?

My clothes are worn by the self-confident woman who wants to emphasize her beauty and her feminine silhouette with a skilfully cut,

captivating and perfectly made piece. With the right style, they adapt to special occasions, many models can easily be worn in everyday life. Because of the elaborate production, my clothes are expensive, so nothing that you only wear one season. I'm doing a kind of slow fashion. Each dress should be a timeless and elegant favorite in the wardrobe for many years to come.

Exclusive offer

For readers of Golf, Piacere & Gusto on presentation of this page we offer only a one-off discount of 30% when you buy a dress-Yynosia both ready-to-wear models (subject to availability) and to measure clothes.

In Italy, pastries are served with every aperitif, with every meal. Taralli are the most popular aperitif-food in Italy. They go perfectly with a glass of wine, cheese or fine prosciutto. This is tradition and belongs to the food culture of Italy. The delicious Taralli and Tarallini are hand-crafted into small rings and usually consist of flour, salt, olive oil and white wine. Especially around Naples the Taralli are enriched with aromatic ingredients. Traditionally with fennel seeds or dried chilli peppers. They are available in different tasty flavors.

The delicious Taralli are now also available in Switzerland. On www.deliziedelsud.ch the different varieties can be bought. Perfect for your own aperitif or as a gift for friends. And you will also find the right wine from Campania www.deliziedelsud.ch

Here are some beauty tips in case you will use it.

- How do you treat yourself and your skin to make it so smooth and wrinkle free?

Since health is priceless I take good care of myself and take Celergen everyday. *Celergen, Swiss Marine Cell Therapy* is the only Swiss Antiaging solution of the future, it is definitely the next big step for those seeking well being and good health. Our bodies are constantly trying to repair themselves by reproducing and revitalizing cells. The key to the success of Celergen is that it packages proteins in such a way that they easily enter the blood stream and the brain, thereby trigger enhanced cell activity.

- Can you tell us what is your daily skincare routine?

My daily skin treatment is of course to clean my face with *Gentle Wash from Lancome*. I love Lancome because it gives me a fresh feeling. Afterwards I use *Skin Mist Spray* made of Cucumber. This skin mist spray provides important proteins, vitamins and hyaluronic acid. I massage my face a few minutes with *100% Argan Oil* which contains vitamins and protects against free radicals. Of course I also use everyday *Sun-blocker* to guard my skin against pigmentation. Once a week I do a face treatment with *LED Light Therapy* and every three months I do my favourite treatment called the *Mesotherapy*.

Tell us your story ...

I graduated in Modeling, Personal Development Image and Event organisation at the University of Peru. Having a proper etiquette demonstrates respect, care and consideration. *Physical balance, inner confidence and a sparkling personality* are all necessary to make a charming performance. The catwalk, easy to learn but can take a lifetime to master. However, what makes runway technique so interesting to me is how requires both outward and internal calibration.

HAPPY WITH THE FACE-METHOD™

The FACE-Method™ by Christine Scheib is a highly effective natural facelift for the face. The method developed by Christine Scheib consists of effective exercises that have a direct effect on facial muscles, skin and tissue. The aging of the face is thus greatly delayed. Lowering of the cheeks, hanging cheeks, tear sacs, drooping eyelids, crow's feet, double chin etc. are revitalised. The exercises tighten and shape the face and make it look many years younger. Even vision is improved by eye training with the FACE-Method™.

Results of the FACE-Method™ are:

- a rosy skin tone
- glowing eyes
- fuller lips
- well constructed and shaped cheeks
- a firm neck and chin area

*A world-class
museum in a
historic private
villa*

The collector

Oskar Reinhart (1885-1965) came from a wealthy trading dynasty in Winterthur and had close contacts with artists whom his father supported as patrons.

He himself began collecting art at an early age and retired from business at the age of 39 to focus on his passion. At the same time he acquired the villa „Am Römerholz“, where he lived, surrounded by the most impressive works of his collection, until his death in 1965.

He bequeathed the villa and the collection in the will of the Swiss Confederation, which opened the rooms to the public in 1970.

The collection

Oskar Reinhart left behind one of the most important private collections of the 20th century. Outstanding paintings of French Impressionism and its predecessors in his collection lead a stimulating dialogue with masterpieces of older art.

The bow spans from Lucas Cranach the Elder, to Cézanne, van Gogh and the early Picasso. Among the approximately 200 works of art are top works by Géricault, Manet and Toulouse-Lautrec, as well as whole groups of works by Delacroix, Courbet, Corot, Daumier and Renoir. With the older works and their presentation in coordinated historical rooms Reinhart took up the model of French and German private collections. Oskar Reinhart assigned Impressionism the most significant achievement in the arts. In him, he recognized the enhancement of color and light to independent imagery.

Out of this thought, he developed the taste for the „picturesque“, which he

raised as the unconditional standard for judging art. As a result, he considered the Old Masters not as great in their epoch, but as a forerunner of modernity.

Park and Café in a unique atmosphere

A historic park with old trees and important sculptures surrounds the property and can also be visited. The attractive café with terrace overlooking the garden invites you to linger and can be booked for special groups (eg, corporate events and family celebrations).

A good website does not have to cost much

A good corporate website is like a sales representative who works 24 hours a day. Should your website also automatically attract new customers? Thanks to our experience in online marketing, we know what makes a good website:

- well and succinctly worded texts
- authentic and sympathetic pictures
- fast loading times on all devices
- a clear and intuitive page structure
- a competent webmaster

There are few agencies that cover all these factors. And if so, then that quickly costs a high five-digit amount. Except at netpulse AG. We create and maintain websites at a low fixed price - so you can concentrate on golfing.

A HOUSE WITH A GREAT TRADITION
AND A PASSION FOR GOLF.

Four words describe the soul of the village:
luxurious, natural, magical and mystical.

To get an idea of what it means by „mystic“, you can start by watching the video series „Mystic Mountains“ on the official website www.anderlatt-swissalps.ch. Stories of enchanted mountains, of people who live there, love them, and have chosen the sustainability and harmony between innovation and tradition as pillars of urban development.

Andermatt, the pearl of the Orsera Valley at 1447 meters above sea level, has won its bet with the future without

losing its ancient soul of alpine village. It has developed into a year-round destination in recent months, with the opening of the new conference hotel Radisson Blu Reussen, with residences, its public indoor pool, its wellness and fitness area.

Then there are 8 apartment buildings and the Piazza Gottardo which is the new commercial heart of Andermatt, with its shops and restaurants.

Summer is upon us and there are great expectations.

The 3-times award-winning 18-holes “best Golf Course of Switzerland”, with its spectacular mountain surroundings, allows you to play golf in a Scottish atmosphere and has quickly become one of the most sought after in all of Switzerland.

Andermatt has reached important milestones, but there is still a lot to do and more to come: the concert hall will be inaugurated on June 16th with a great concert of the Berliner Philharmonie. There are plans to start building the third hotel, a family structure soon. At least 30 other apartment houses are also designed to be built soon. Of course, the opening last December of the ski connection Andermatt and Sedrun was another milestone that allowed the promoters to experience one of the best seasons ever.

With the two Gütsch-Express (Andermatt-Gütsch) and Schneehüenerstock-Express (Oberalp-pass-Schneehüenerstock) cable cars, the operators open a new hiking and biking paradise with restaurants on both sides. In addition, another gondola from Sedrun to Cuolm is ready to widen the hiking field towards Disentis.

Andermatt is a little paradise in the Alps: investment opportunities are safe here, the quality of the construction is excellent and there are activities and options for all kinds of guests.

NOCITO

Via Venezia – Palazzo Nocito – Sciacca

The Golf Club Castelconturbia was founded in 1898 in Piedmont and was one of only 2 existing golf courses in Italy. The famous American architect Robert Trent Jones senior designed and built the modern 27-hole (3x9). In perfect harmony between old trees, streams, lakes and hilly terrain this is in his opinion his most successful work. The three paths lead to the terrace of the clubhouse, a fantastic place to relax and enjoy with a wonderful view of Monte Rosa. Newly opened in 1987, this golf club hosted the Italian Golf Open 1991 and 1998 twice.

The headquarters of the Reale Golf School is the Castelconturbia golf club. A field of exceptional beauty and difficulty with 3 parcours of 9 holes made over an area of over one million square meters.

The Reale Golf School is born from the passion for the game of golf and from the desire to divulge it through its teaching. The school does not just build good swings, but aims to train good players able to be at ease on any course. The ultimate goal is to achieve good continuity of play despite the many complexities inherent in golf.

The school proposes *individual lessons* that will allow the teacher to focus on the student's specific needs and to develop a personalized work plan to solve his specific game problems.

The lessons are certainly very useful, however they require great constancy and commitment to bear fruit.

For that it lacks continuity in training it can sometimes be effective to make a total immersion in the world of golf: a *golf clinic*, whatever its duration, the whole day is dedicated to learning the game of golf declined in all its components. The Golf School will undertake to organize golf clinics whose duration will vary from three to seven days. On the typical day of a golf clinic theoretical lessons are given, technical lessons in the practical field, chipping green, putting green and practical lessons in the field.

The Golf Club Bogogno was designed and built in 1997 by architect Robert von Hagge. It offers extraordinary Course 18-hole, par 72, which stretch on gentle hills with a dream panorama on the Monte Rosa. In less than an hour you are in the shopping mile of Milan, Malpensa airport is only 20 minutes away. Golf Club Bogogno

Starlight Golf is an amazing, unique and innovative concept where participants by night on a driving range have fun aiming at lighting interactive targets with phosphorescent balls.

Organizing several events mainly in Switzerland, neighboring France and today in Italy, for corporate companies (like ABB, ALPIQ, VIFOR Pharma) during private or opened events (like the last edition of „La Golf Night in Crans Montana“).

TCO Golf Events designs, builds and markets the Starlight event product to individuals or entities who wish to use it in their public or private manifestations.

Its offer is based on 3 main targets:

- Players in the professional golf world such as golf directors, federations and organizers of golf events (at tournaments, Opens or Open days).
- With the brands and advertisers by

offering them a promotional space to accompany them in carrying out their PR operations and launching products on the market.

- Companies and their committee to suggest innovating incentives and team building activities around the values of golf within the framework of their corporate events.

Starlight Golf format is different from a classic 18 holes golf tournament or competition played during the day. At Starlight Golf events we guarantee to sponsors an exposure time of their brand multiplied by 16 times and contact with a high profile of people during the whole event all in the same place.

Partnering with luxury event agency Elya Events, we offer prestigious services of organization and logistics of the Starlight Golf event, with golf courses and hotel partners.

Events are available in Switzerland, France and Italy within a 1000 km radius of Geneva.

TCO Golf Events offers the marketing tools dedicated to the success of the communication operations by requesting the proper partners.

ITALIAN WOOD PUTTERS

100% ARTISAN MADE
ONLY THE BEST WOODS
COMPLETELY CUSTOMIZABLE
HANDMADE IN ITALY

HARDWOOD PUTTERS was born in Italy from the idea of joining the world of golf with design carpentry. Specifically, the intention is to create a range of putters that are not only functional and in line with the specific R & A and USGA, but also small objects of art. The materials used are of the highest quality and the very special weight distribution, combined with a deliberately vintage design, guarantee the customer to have in his hands a unique and extremely effective product on the green. Wood, in Hardwood Putters, is therefore not only synonymous with nature, history and return to the past, but also and above all of effectiveness.

WHY CHOOSE HARDWOOD PUTTERS:

- **Innovative technology**
- The wood provides a **softer impact** on the ball and greater control of the trajectory.
- The **greater lightness** of the wood compared to the metal allows a greater freedom in the distribution of weight, and to act in such a significant way on the overall balancing of the head. All this allows to increase the hot spot from a few millimeters of a normal putter to over

2 cm wide, forgiving in part the error.

- **A tailored suit**

It is not the customer who has to adapt but, on the contrary, it will be the customer to choose all the features he wants his putters. A custom-made suit, therefore, from the type of shaft, to the weight, to the woods used, to the inlays, etc.

- **Each putter is a unique piece**

Great care for every detail and request give the opportunity to have in your hands a unique and exclusive product.

- **It is completely handmade in Italy**

Our philosophy is to give the customer the best, and do it without compromise. The product is therefore made entirely by hand in every phase, without the aid of numerical control machines. An artisanal product in the true sense of the term.

- **An unmatched look**

The solid wood used comes from all over the world and gives the putter a unique appearance and an inimitable color.

ORAFI IN SCIACCA

G.C.Biella – Le Betulle, founded in 1958, has in the golf course, framed in a landscape of rare beauty, its strongest point. Over many years G.C. The course, designed by British architect John Morrison, is a typical example, rarely found in this country, of “English style” layout, very “environment-friendly”. Silver birches, chestnut trees and centuries old oaks frame the eighteen holes with colourful backdrops that change with each season. Practice facilities are available, consisting of two practice putting greens, a practice hole complete with bunkers, chipping and pitching greens and a driving range with grass tees and sheltered practice boxes.

Inside the Club House, the simple but refined furnishing and wooden flooring pierced by spiked shoes give a feeling of warmth. The Lodge, aesthetically delightful, offers very comfortable rooms with old style furnishing, perfectly in sintony with the Club House.

In 1956 the Circolo Golf Torino moved from „La Maddalena” to „La Mandria”. The hilly site, albeit with nine holes located within a pleasant framework, has been for some time close to the members. Giovanni Nasi, former President, his wife Marinella and the Council have long since found the land on which to move. The architect John Morrison builds the new eighteen holes and the entrepreneur Attilio Biral erects the first club-house. The new Circle is beautiful, full of trees, vegetation and water. There are no houses and everything is based on golf. However, there are some objective difficulties of management, created by the limited number of members. It will be the Piemonte Sport, in 1977, thanks to Sergio Pininfarina to solve the problem and to permanently allow the Club to grow. The birth of Piemonte Sport allows you to find yourself with a considerable financial availability that in a first time will serve to fill the field and to better manage the workforce and then subsequently lead to the purchase of the land.

Istituto Helvetico Sanders®

Trichological surgery has made great strides in recent years: **the F.U.E. (Follicular Unit Extraction)** allows to obtain follicular units without leaving any visible sign to the naked eye.

This minimally invasive method consists in withdrawing from the occipital area (donor area) the individual bulbs that are re-implanted in turn in the affected area (receiving area) of the subject.

The results are totally natural with hair growing stronger than before in areas where they were absent; in fact, unlike the others, the hair taken from the back of the neck to be replanted is not affected by the action of androgens that determine its fall.

Precisely for this reason the results obtained with the autotransplant can be defined as **permanent**. The F.U.E. technique it is minimally invasive, allowing to resume **normal activities** just a **few days after the operation**.

To get the best possible result it is essential to rely on the experts in the field. **Istituto Helvetico Sanders**, currently one of the main reference networks in Europe, puts at your disposal **over 100 hair restoration specialists** (surgeons, health assistants and biologists), **state-of-the-art facilities and periodic checks**, directly at your city's premises.

Verdura – a paradisiacal expanse on Sicily’s stunning south-west coast – is their flagship resort. 230 hectares of sun-blushed Mediterranean coastline, countryside and hotel: space for the Forte ethos to shine. Insightful hospitality quietly caters to every desire. Sleek, environmentally sensitive architecture fuses with Latin terracottas, ochres and violets. Local charm with universal style. Verdura’s vast scale and escapist atmosphere afford endless indulgence and choice. Choice to unfurl in its capacious spa, or lap its infinity pool. To play tennis among its orange groves. A round or two of golf. To master Sicilian cooking, or simply savour it by the sea. To explore Verdura’s 12th-century tower; helicopter across Etna; or stroll along its private beach. The coral accompanies the history of our city from time immemorial, the great coral fishing of Sciacca in the fossil banks instead has a more recent history that starts from the seventies of the nineteenth century and that ended the early years of the twentieth century. SOUL & COLORS IN MARRAKECH

One morning in autumn, 10 years ago, I casually bumped into Derb al Kady, which is a long and silent road in the ancient district of Marrakech Medina – beyond the high walls you could imagine perfumed gardens and you could hear the song of the birds.

RIAD AL LOUNE

I was walking along, following old tales, veils, dances, loves, glances and perfumes.

I found a small sculptured wooden door which was wide open, so I entered. An incredible white sculptured stucco facade, which had been there for several centuries, the fresh murmur of the waters, iron bars which seemed like laces, and colours, everything was so colourful. The light of Morocco. I decided to stay there. This extraordinary beauty I felt should be shared with many others and than, as if by magic, the ancient Kadi's house became Riad al Loune, the secret garden of the Colour.

The Riad is located in Marrakech Medina's heart, a few steps from the Ben Yousseph Madrassa and a few minutes walking distance from Djemaa el Fna square. The Riad has 8 rooms (supplied with air conditioning/heating, bathtub/shower, hairdryer), solarium, swimming pool, hammam, SPA (massages etc), relax zone, indoor moroccan dinners and parties on request (local food, music, dance). Upon request airport pick-up and drop-off. Walks and guided tours. Wifi ADSL free.
