Geneva International Motor Show 2019: Registrations are now open!

The 89th Geneva International Motor Show is open to new ideas: The regulations for the 2019 Motor Show have been made more flexible. Participants from all domains of individual transportation can now inscribe. In addition, the Motor Show will better respond to the needs of both exhibitors and visitors and will put the emphasis on the future trends for the automobile industry. Inscriptions for interested exhibitors will be open since May 1 to July 1, 2018. The 89th Geneva International Motor Show will take place from March 7-17, 2019 at Palexpo in Geneva.

The world of individual transportation is changing: manufacturers and suppliers must come to grips more and more the questions regarding the electrification of vehicles and connected mobility, driverless vehicles, packages of digital services or transportation services. For these reasons the Organising Committee of the Motor show have reviewed its General Regulations and will adapt a number of improvements for the Geneva International Motor Show 2019.

The 2018 Geneva International Motor Show confirmed once again its importance as its exhibition halls were full and with the presentation of 157 World and European Premiers. More than 660,000 visitors from all over the world were registered during the 11 public days. The highlights of this year's Motor Show can be found at the official website: www.gims.swiss.

This magnificent golf course with a fantastic view of Lake Geneva is located on a hill in Cologny, just a few kilometers from the city of Geneva. The topography is hilly and the fairways are very different. The complex - designed by the famous Robert Trent Jones - is characterized by undulating green and bunker, especially hole 17, which leads to the end on a hill to an idyllic small lake.

L.RAPHAEL Temple of Beauty in Geneva

Credit photos : F.Ducout

L.RAPHAEL Genève, the world-class luxury beauty brand offers the most effective cosmetics treatments for the skin as well as exclusive technological innovations that have catapulted L.RAPHAEL Genève at the forefront of anti-aging skincare.

The Temple of Beauty L.RAPHAEL is the flagship of the swiss beauty brand with 6 floors at 15 rue du Rhône, Geneva located since the 2005 launch in the most prestigious shopping street in Geneva.

Completely dedicated to appearance and to well-being, L.RAPHAEL offers 10 treatment rooms, 2 consultations rooms, a room to practice yoga and Pilates, a bronzing room and a beautiful hair salon on the 1st floor. Everything is coordinated to create a unique experience at every level. The customers are accompanied at all times during their cus-

tomized journey, knowing that they can count on the expertise of the L.RAPHAEL team.

The building has been undergoing a major renovation to instill a more glamorous and vibrant style to the flagship brand. The DNA of the house has been preserved but the classic style has been turned into a more sexy and modern one. The new Design has been conceived by Alexandra de Garidel, a renowned Swiss-French designer, well known for her breathtaking interiors and sense of daring.

Also, L.RAPHAEL is also announcing its newest series of treatments for teens and young adults.

The L.RAPHAEL Young Program provides solutions to a young person's common concerns, which may include: weight, acne, nutritional issues, excessive hair such as eye-

brows, arms and underarms, legs, and much more.

The program will work with participants through a more holistic point-of-view that focuses on themselves as individuals, inside and out. L.RAPHAEL's unique program YOUNGTEEN is implementing proprietary treatments, including the Anti-Acne, advanced slimming solutions, laser hair removal (best practices after 30 years of experience) and the home care line for continuous care.

The program is based on the fact that teenagers and young adults are in the most important growth phase of their lives. L.RAPHAEL's experts instruct each teenager on the optimal and personal path for him/her to be beautiful and healthy (rather than just «copy» celebs), and they are received both individually and in groups.

The trigger for building the new program was a personal experience of L.RAPHAEL'S Founder, Mrs. Ronit Raphael: «My interest in

skin care grew from a difficult personal experience. At the age of 18, I suffered from minor acne, and tried a chemical peel that seriously damaged my skin and left me with second-degree burns. I spent years meeting with dermatologists all over the world to learn everything I could about skin care... Now, when I watch my 3 children growing, and challenge body concerns such as acne, nutritional issues and excessive hair, it drives me to develop more and more effective solutions that can help them, and all other teenagers around the world.» With 30 years of activity, the L.RAPHAEL team has gained experience with young age groups, and developed an approach that also helps young guests benefit from the program for the long term, after they return home.

LADY CHARRIOL CUP

The LADY CHARRIOL CUP was held at the prestigious Domaine Impérial golf course in Gland on 12 June for the second successive year. The fifty participants were accompanied on their round by bright sunshine. The Stableford single format was played on a course with perfect condition - traces of the violent storms from the previous day were barely visible.

The LADY CHARRIOL CUP celebrates and rewards women for being the best in their sport. These competitions were presented by Marie-Olga Charriol in France - Deauville, Chantilly, Megève, Saint-Tropez, Monaco as part of the Women's Polo competition.

Marie-Olga Charriol, International Director of Public Relations and Events for Geneva watch brands, received the prize and addressed participants during the awards ceremony. The 9 winners of the competition were given CHARRIOL jewelry and

accessories as prizes (CELTIC™ and PONT D'AMOUR bracelets, long 100 WAYS OF LOVE necklaces).

CHARRIOL Watches and Jewelry

CHARRIOL is a renowned watch and jewelry brand that also offers perfumes, eyewear for pens and leather goods. Founded in 1983 by the French entrepreneur Philippe Charriol, CHARRIOL is still an independent family brand today. The unique style of CHARRIOL is embodied in the famous CELTIC™ collection. The model series is framed by a braided rope of gold and stainless steel paying homage to a strong symbolic motif of this ancient civilization.

CHARRIOL creations are distributed worldwide through a network of 285 shops and 3800 sales outlets. Find all model ranges at www.charriol.com or consult a watchmaker or jeweler:

Golaz (57 Grand Rue) in Morges, Airbijoux (20 Passage Malbuisson) or Harold (20 Rue du Mont Blanc) in Geneva. Don't hesitate to visit one of the 285 BOUTIQUES CHARRIOL or one of the 3,800 sales outlets presenting the brand's products all over the world!

Imagine a plateau at 1,500 meters above sea level, in the heart of the Alps, with a world-famous panorama stretching from the Matterhorn to the Mont-Blanc.

Against this impressive backdrop, in 1906, golf pioneers built the first facility. Other greens have sprung up on this privileged plateau and today there are no fewer than four golf courses in Crans-Montana.

Of these, the Championship Course «Severiano Ballesteros», named after the name of his famous architect. Every year, the European Masters takes place there, where the golf elite meets for an exciting tournament. Specialized magazines have described the 18-hole course as one of the most beautiful in the world.

The almost contiguous 9-hole course «Jack Nicklaus» has also won several awards. Four times he was named the most beautiful 9-hole course in Switzerland.

LAUSANNE

Golf
pleasure & taste

It was at the end of the summer of 1921 that Oscar Dollfus, the initiator of golf in Lausanne, could hit the first balls. The course then includes only 9 holes. Still under the presidency of Oscar Dollfus, the course passes to 18 holes in 1931. And it is the war, with the famous Plan Wahlen which will reduce the ground with 9 holes, before the original route is re-opened in 1947.

In 1996, the British architect Jeremy Pern applied a facelift by giving the course new raised greens, allowing this venerable golf course to appear among the most beautiful courses in Switzerland.

DARRELL JACOBS
CEO & Co-founder of Clinic Lémanic

THE CLINIC LÉMANIC FOR GENTLEMEN

Darrell Jacobs, CEO of Clinic Lémanic gives advice to men who want to look after their appearance. «The aesthetic is not reserved only for women. Nowadays, many men use care to feel good about themselves and their head.»

Businessmen in a hurry will particularly appreciate the painless, 100% natural, non-surgical treatments that will help them regain their skin tone in one sitting. Among the aesthetic acts appreciated by men, Darrell Jacobs cites the cutaneous firming by radiofrequency - with results often spectacular in only 1 session - Cell-Boost by the natural cells autologous with the immediate and lasting effect of glare, effective reduction of double chin by ultrasound.

For the small unsightly bulges of the body, cryolipolysis is a simple and natural way to chase them in 1 hour per treatment area. Those who can devote a few more days to treatment, may opt for liposculpture that allows to intervene on larger surfaces.

Clinic Lémanic also has a state-of-the-art cosmetic dentistry practice to give men the desire to smile, to conquer, to seduce. Its «Smile» concept utilizes ultrafine veneers to make the smile look radiant in a lasting and reliable way, in one sitting if no orthodontic correction is needed.

Unwanted hair loss, whether genetic, resulting from an accident or an unsatisfactory hair transplant, can cause a loss of confidence in humans. The Hair Expert Center at Lémanic Clinic offers various solutions to this problem, in particular the technique of MICA® natural

hair implants without surgery. This technique can also be used to rebuild the beard. Finally, men will find in our department of plastic surgery the different possibilities of resorting to more intimate and specifically male treatments, such as gynecomastia or penoplasty.

Leading golf means controlled well-being quality

A TODAY golf course needs to be tested by TODAY's golfing people, with TODAY'S eyes and equipment. So that members and guests - demanding people of TODAY - can feel completely comfortable on the golf course. That's why the Leading Golf Courses can be tested over the whole season with a single best practice.

Demanding design and perfect greens are no longer a unique selling point for golf clubs in our latitudes. The term «well-being quality» of a golf course will continue to gain in importance in the future. Five Swiss golf clubs are currently awarded the premium label «Leading Golf», across Europe there are 64 facilities. In order to meet the demand for an all-round feel-good quality, the golf courses have to fulfill defined quality criteria. Each season, each facility is tested 6 times by anonymous test persons on more than 100 space, design, catering, service and infrastructure questions.

«The Leading Golf Courses» strive for perfection and set the standard for golf culture at the highest level - for the benefit of the people of TODAY.

The golf course is situated in protected parkland with a magnificent mountain backdrop, in a fog-free location above Lake Geneva. Thanks to the mild microclimate, it can be played all year round. In 2005, the Montreux Golf Club commissioned the famous American architect Ronald Fream to redesign the golf course. He succeeded in preserving the original character of the site and at the same time designing a modern space.

The cultivated greens, cleverly arranged ponds and undulating fairways amidst dense green and old trees offer varied golfing enjoyment.

ZÜRICH

The Dolder Golf Club Zurich was founded in 1907 and is thus one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

For this reason, the many inclines make the place, despite its clarity, a physical and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

The concept „The Living Circle“ thrives on nature and luxury - in the most fascinating places in Switzerland. „The Living Circle“ is not a chain of hotels in the classical sense, but an exclusive selection of incomparable habitats with two hotels, two farms and two exquisite restaurants.

ARRIVE AND COME HOME

The stork is one of two very special houses that make up „The Living Circle“. Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come together in

the stork. Our restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to var-

ious renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivated relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box seat for the multifaceted spectacle Zurich has to offer.

MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

HOW ZÜRICH MEANS

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be pampered by the exquisite seasonal creations of Chef Cyrille Anizan, against a spectacular mountain backdrop. The recently refurbished Barchetta Bar attracts locals as well as guests from near and far - with freshly roasted coffee and light lunches a day and expertly mixed cocktails in the evening. Finish - or start - the evening in the new Cigar Bar, where connoisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clearly

during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the stork's top-equipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m²). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend our boardroom (35 m²),

the Limmatt room (36 m²) or the Werdmüller room (20 m²). The restaurant La Rôtisserie, the Barchetta Bar and the Cigar Bar can also be rented for events.

A CITY LIKE A HOME

The «stork experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmatt is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthaus and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless exclusive shops, many famous

dining establishments and a nightlife scene that is well known across the country.

MAKUMAYU

ALPACA FASHION & LEATHER GOODS

MAKUMAYU is a fashion company founded in 2011 with headquarters in Switzerland, run by the fourth generation of the Palaco family from the Peruvian city of Arequipa.

The family is one of the pioneers in the trade in alpaca wool and began processing and exporting to Europe in the early 20th century. The brand is composed accordingly of two central elements of the family history.

MAKU is derived from the name of the village Makusani, which lies at an altitude of more than 4'000 meters above sea level, located in the Peruvian Andes. In this village, the Palaco family lived to buy quality

alpaca wool. The alpaca breeders had to cross a river called MAYU on Quechua. In the 1960s, with the support of the family, a bridge was built in order to ensure a safe crossing for the alpaca breeders.

The company's close ties to the Peruvian highlands and alpaca breeders are also reflected in MAKUMAYU's social commitment and support for local projects.

HAMMAM

Already over one hundred years ago, our ancestors washed off the everyday dust in the Volkshaus. Today, the Turkish Hammam nourishes the soul in the city bath at the same time. Herbal steam baths and healing chalk wraps not only cleanse the pores deep, they also warm the mind - as well as the relaxation on the navel and the oriental refreshments in the relaxation room afterwards. Our insider tip are the original soap foam massages.

THE CITY BATH OF ZÜRICH

Being there, enveloped by comforting warmth. There, where soft lights glow and exotic smells float. Where oriental hospitality of Swiss quality shakes hands. To be there, where the distance is in the home and the home in the distance.

SAUNA

Turks, Russians and Native Americans have known for hundreds of years about the beneficial effects of the sweating ritual. A special treat is the additional massage with birch branches before jumping into the ice cold pool - for detoxification and natural stimulation of the circulation.

SPA-TREATMENTS

Whether deep relaxation, beauty or health: the Hammam & Spa combines selected spa traditions. Classic and oriental massages relax and increase wellbeing. Ayurvedic treatments ensure detoxification and cleansing, thalasso therapies revitalize and tone up with the healing powers of the sea. And for a particularly radiant conclusion, offer our various beauty treatments.

Dr. Carin Heringa

SWISS MEDICAL BEAUTY CENTER

Natural beauty through the hands of a skilled doctor.

Why should a customer opt for Swiss Medical Beauty?

Dr. Carin Heringa is the founder and director of Swiss Medical Beauty Center, a modern private medical beauty and laser center, located in the heart of Zurich on the Löwenplatz. Swiss Medical Beauty Center offers its clients a wide range of most efficient and safe treatments embedded in an exclusive and elegant ambience. The range covers a wide range of facials, mesotherapy, botulinum toxin treatment, PRP vampire lifting, hyaluronic acid wrinkle injection, lip augmentation, hair and tattoo removal, suture lifting, cryolipolysis, advanced laser body reshaping, laser face lifting, scar treatment, Elimination of vascular and pigment lesions, as well as skin rejuvenation treatments.

Which latest technologies do you work with?

Swiss Medical Beauty Center utilizes the Fotona's SP Line Laser System, a versatile multipurpose system that supports an exceptionally wide range of applications - from the 2-dimensional TwinLight® procedure for body sculpting and laser lipolysis to the 4-dimensional Fotona4D® facial procedure, Neck and décolleté treatments. Fotona's 4D laser treatment allows long-lasting firming and tissue padding (wrinkle reduction) without injections; an extraordinary laser face lifting without invasive procedure. Other possible interventions with the Fotona laser are not only tattoo or pigment removals but also laser unsupported anti-snoring therapies. Swiss Medical Beauty Center is one of the Fotona competence centers in Switzerland. Swiss Medical Beauty Center also works with a state-of-the-art Alma Laser platform. Natural beauty through the hands of an experienced physician.

Their specialties are thread lifts. What can that mean?

Thread Lifting is a modern anti-aging procedure, with which a maximum lifting result can be achieved without surgery. With this method, we bring medical threads of polydioxanone into the skin, which have already proven in the vascular and cardiac surgery and are degraded by the body itself - a gentle, long-acting and minimally invasive anti-aging treatment, to youthful and well-formed contours can help.

OLIVER PASETTO
 GOLDSCHMIEDE

WHY DID I BECOME A GOLDSMITH?

The fact that I trained goldsmiths comes from the fact that I like to hold the threads or the overview of the work to be done. I just enjoyed the meticulous work and that after a few hours a finished piece of jewelry on the workbench. I did my training in Winterthur, then at one of the leading goldsmiths in the city, who lived almost exclusively on commissions. That was particularly exciting, because I always knew who gets the piece of jewelry, a nice and motivating experience. I remained faithful to my profession and became a workshop manager at 25 years in a major jewelry trading company. This was a kind of

life school, also in terms of jewelry production and employee lead.

AWARD AND RECOGNITION

I wanted to go my own way by winning the De Beers Diamonds International Awards in 1998. That's why I ventured the way of self-employment. Through my work as a studio boss, I had contacts to specialist shops and so I began to work with my own designs to acquire more specialist shops. It was an exciting time to present your own designs to trade fairs such as the Jewelry and Watches Fair in Basel or Inhorgenta Munich to an international trade audience. At that time I had the

studio in a disused pasta factory in Winterthur. In 2001 I ventured the step into the USA, more precisely to a jewelry fair in New York. I received an invitation from an American Exhibitors' Committee, which I met through the De Beers Award. So it happened that after the exhibition in NY by a jury of experts, I received the New Designer Award 2001 for design excellence from the fair for my jewelry. That was an indescribably nice feeling.

MY DOMICILE

In 2006, about 20 years later, I returned to my roots because the shop, which was vacated in the old town of Winterthur, found me. I call it that because I was not necessarily fixated on a shop. Due to my enormous travel activity with my collection, I have seen many specialty shops. That's why I knew right away, that's it! Two medium-sized windows, shop 45 m2, view of the city park, just awesome.

My studio is set up in the adjacent adjoining room of the shop, so I can easily switch between advice / sales and production. That's a good thing, because here the customer has the certainty that his piece of jewelry in the adjoining room will have its origin. Transparency is an important issue, which is why I also invite you to take a piece of jewelry in between to avoid misunderstandings. Mutual satisfaction is a central point in my work. I want my jewelry to become one of the favorite pieces of jewelry and to displace other creations. My creations should be worn and not disappear into a «box».

Therefore, my full concentration is the first customer discussion, I question, briskly, propose and try to come to the essence by means of an exclusion process. Only when I have enough suggestions from the customer does the creative engine start to work in my head. With a possible visualization or model then it goes into the first round of talks. Thus, the piece of jewelry takes on its shape with the cooperation of the customer. I put my creativity at the customer's disposal, so that the customer ultimately gets the piece of jewelry that he carries in his ideas.

My design is a mostly reduced design language that has been brought to the point. You could say sober or German design language. The implementation of it is a little more Latin, playful and subtle. Ultimately, the stone of desire should be in the spotlight and radiate its magic. I just provide the creative framework so that the stone can show its full effect. First and foremost, I work for my clientele, which is ready to inform itself on site and seek a technical discussion. Since jewelry is a long-lasting product, in my opinion, more time should be put into the development process from the customer's point of view. My clients appreciate my patience, which I apply for your jewelry concerns over and over again and thus strive for the best possible solution. I like the happy faces after a successful deal.

In addition, I also receive design orders from outside, such as an exhibition concept for the Numinismatikbereich a bank that wanted to

present the gold coins to be sold clean and effective. That's where my many years of trade fair experience came to fruition.

WHAT CAN THE JEWELRY-INTERESTED CUSTOMER EXPECT FROM ME.

What makes me so special? Actually nothing! Except that I could enjoy a solid and traditional education and became an all-rounder through the years. I can still mount rings as usual in the past. Create my own models and find my way around today's Modern Goldsmith 2.0 with his CAD. I only use CAD on request, because I really want to provide my customers with solid manual work. All stones are taken in the house by myself, only pavé works and engravings are made externally by the specialist. So the jewel almost everything is made from one hand.

AM I AN ARTIST?

Rather I would say service provider, but if the teasing out of a client's mental vision can be put into an exact form, then I let that apply. My personal happiness depends more on customer satisfaction than on created forms that advertise clientele in the shop window. The art as a whole lies in the smile of a customer's face after a successfully completed mission.

Welcome to the winery Nadine Saxer

Born as a winegrower's daughter, I was already connected with vines and wine from an early age. Today I work and live with my family of five at the winery. I am pleased to welcome you personally at the winery.

In our 8-hectare family business in a prime location in the Winterthur wine country, we cultivate a natural cultivation. In doing so, we take the laws of nature into account and treat the available resources with care. With much manual work and passion, excellent wines are produced.

Our winery has been a family business since its foundation by Jürg Saxer in the 1990s. Today, it is run by his daughter Nadine with husband Stefan Gysel Saxer and a team of knowledgeable staff.

In addition to the quality of the wines, catchy names such as «Nobler Weisser», «Nobler Blauer» or «Der Sonder» contribute to the success of our goods. It sits enthroned in the midst of the vineyards proudly over Neftenbach and understands it again and again to combine tradition and innovation.

ANDERMATT - The attractive year-round destination.

A house in the mountains can not ignore a ski area up to expectations nearby, kilometers of slopes where you can have fun going down the snowy slopes with skis or snowboarding on your feet. That's why Andermatt is turning into a fascinating and exclusive tourist destination ready to welcome thousands of visitors all year round, and has become the largest ski resort in Central Switzerland, with its 120 kilometers of slopes located in a snow-covered region sure.

Apartments with hotel service from Radisson Blu

The Gotthard Residences will be inaugurated by Christmas. In a new independent building there will be about 100 units ranging from practical studios to spacious apartments with multiple rooms, up to luxurious penthouses. The owners can take advantage of the rates reserved for them in the restaurants, in the fitness and wellness center, on the golf course or on the ski slopes. Thanks to a solution

comparable to the membership of an exclusive club, residence owners enjoy many other advantages such as preferential booking process management, invitation to particular events and much more. So your apartment becomes a real place of good alpine retreat with a dedicated service.

For the first time, starting this winter season, it will be possible to ski up to Sedrun and return to Andermatt, always on skis. It's the big news of the winter of 2018-19 which is already enjoying a lot of interest among fans all over Europe, ready to come and discover the new slopes built on slopes so far unexplored. This was possible thanks to the construction of ten plants (four new, five replaced and one renovated). At the same time, artificial snow-making systems, runways and restaurants were also built. The new SkiArena Andermatt-Sedrun has in fact become the

largest ski resort in Central Switzerland and, thanks to its variety and guaranteed snow cover, is one of the most interesting in Switzerland. Ambitious skiers find their ideal terrain on the Gemsstock, while the Nätschen-Gütsch with its sunny slopes attracts families and passionate skiers alike. It is no coincidence that the magazine Fit for Fun has elected the SkiArena Andermatt-Sedrun best ski resort in the Alps.

A golf course that harmoniously adapts to the natural terrain and offers exciting and challenging sports. A golf course that turns golf into an adventure in the midst of an impressive mountain world.

The 18-hole, par 72 championship golf course of Andermatt Swiss Alps is located in the beautiful Urseren valley between the mountain villages of Andermatt and Hospental - surrounded by mountains and the Reuss. The course offers a first-class, high-alpine golf experience for both enthusiastic amateur golfers and ambitious tournament players.

Golf at the Gotthard

Our golf course in Realp is shaped and built by weather and ice. A golf course that harmoniously adapts to the natural terrain and provides exciting and challenging sports. A golf course that turns golfing into an adventure in the midst of an imposing mountain world. Our place is most likely to be called the «alpine golf course in the world».

Something nostalgic please? The clubhouse is housed in a former army building. We offer the right menu for every occasion. Take a seat and let yourself be pampered in the restaurant or on the garden terrace.

Amy Ang Art

HOW YOU GET THIS IDEA OF BEING A PAINTER?

I have always been creative growing up and was interested in literature, art history and theatre. I moved from Singapore to Switzerland 9 years ago and have travelled extensively all over the world. I was fascinated by the landscape in Switzerland and how changes in seasons can unveil different facets of natural beauty around me.

I started painting in early 2016 because of a particular photo that I took of melting ice on Grimselsee in Andermatt. It looked so surreal and magical that I told myself I have to paint it. Since that first painting, I begin drawing most of my inspiration from nature and my travels around the world.

WHICH ARE YOUR FAVORITE SUBJECTS AND WHAT ARE YOUR NEXT TRENDS?

I love painting landscapes and cityscapes. I am currently working on 2 very different concepts – one is a series of nautical-themed paintings, and the other is about alpine animals and their alter-egos.

I want to move away from an impressionistic depiction to a more abstract rendering of my subjects. I want to use mainly colours and lines to reduce buildings and nature to their base forms. I also want to inject more fun and humour to my subjects.

WHAT IS YOUR MESSAGE YOU WANT TO TRANSFER?

I always use strong vibrant colours to capture nature's beauty and to convey positive emotions; I want to transport the viewers of my art into my canvas and experience the peace and tranquility of a winter wonderland, or make them feel the energetic pulse of a bustling city.

Golf at the highest level - 2 x 18 holes in the most beautiful location

Around 1300 members have access to 2 x 18 hole championship courses, generous practice facilities, and an attractive infrastructure on about 150 hectares in a spectacular scenic location. Golf Sempach is the largest golf resort in Switzerland and is located in the Lucerne - Zürich - Basel triangle. Golf Sempach is a member of the Leading Golf Courses Quality Association. It is the only golf course in German-speaking Switzerland to be included in «The Rolex World's Top 1000 Golf Courses» together with five other Swiss golf courses. It has also been ranked among the world's leading golf resorts by Golf Digest.

The 6637 meter long 18 hole par 72 Woodside championship course is the longest championship course in Switzerland and is the venue of the European Challenge Tour. The 18 hole par 70 Lakeside championship course (5591 meters) is a panoramic experience with a clear view of the Alps and Lake Sempach. Both 18-hole championship courses bear the signature of golf architect Kurt Rossknecht.

The beautifully situated 9-hole golf course Bürgenstock has had a remarkable history. Since 1928, a peerless complex has been created, step by step, which blends in wonderfully with the surrounding landscape.

The golf course belongs to Bürgenstock Resort and is used by hotel guests, green fee players and club members. Over the decades, famous personalities such as Sir Sean Connery, Audrey Hepburn, Sophia Loren and many other celebrities who were drawn to the beautiful mountain time and time again have played golf here.

The golf course is set in the middle of a hilly forest landscape and features rugged rock formations which were shaped by the wind over centuries.

It is not without reason that it is known as one of the most beautiful pre-Alpine golf courses in Switzerland. The scenery of the surrounding Central Swiss mountain landscape and the idyllic surroundings of the Bürgenstock guarantee a unique experience.

HEIDILAND

The Leading Golf Courses

With a great attention to detail and care for the perfect green, the Bad Ragaz golf club offers up a special golfing experience. Our course is embedded in a unique mountain panorama and magnificent park. As a member of Leading Golf, we strive for perfection so that discerning guests feel completely at home with us.

The 18-hole PGA Championship Course has been a member of the «Leading Golf Courses» quality- and value-driven community since 2007 and has just become a member of «World of Leading Golf» this year. These memberships attest to the golf culture and philosophy of «striving for perfection». It is also the only golf course in Switzerland to have been awarded the «5* Superior» rating by the Federal Association of Golf Courses and is one of the top courses in Switzerland. In 2017, readers of the golf magazine «Golf Leader» voted Bad Ragaz Golf Club the most well-maintained golf club in Switzerland.

The high standard of care and the beauty of the course makes many an ace golfer swoon. Last but not least worth mentioning the pros on the Staysure Tour, who can be experienced up close at the Swiss Seniors Open from 6 to 8 July 2018.

In our restaurant «gladys», which has been awarded 14 GaultMillau points, you can expect the highest class of culinary sur-

prise. Whether your desire for a lively game of golf is big or small - with us you will.

Opened over 20 years ago and designed by architects Mario Verdieri and John Chilver Stainer, the 27-hole course is a byword for full, challenging golfing pleasure. It is located in a 'tuma' landscape that is unique in Switzerland («Tumas» is Romanic and means moraine hill) and is one of the most beautiful places in the country today. Guests are welcomed to our 27-hole course as long as they are members of a recognized golf club and have a recognized license. The golfer has 3x9 flat holes at his disposal. The fairways are spacious and many greens are heavily undulating. Attractive water hazards and a green on an island are the main features of the complex.

The spacious driving range with tee-offs, sand bunkers, putting greens, chipping and pitching area is very well known among golfers and is considered one of the best training facilities in Switzerland.

The Golf Club Castelconturbia was founded in 1898 in Piedmont and was one of only 2 existing golf courses in Italy. The famous American architect Robert Trent Jones senior designed and built the modern 27 - hole (3x9). In perfect harmony between old trees, streams, lakes and hilly terrain this is in his opinion his most successful work. The three paths lead to the terrace of the clubhouse, a fantastic place to relax and enjoy with a wonderful view of Monte Rosa. Newly opened in 1987, this golf club hosted the Italian Golf Open 1991 and 1998 twice.

Overlooking the shores of the magical Lake Orta, in a natural setting bordered by the walls of an ancient monastery, this hotel complex retains its identity. This is thanks to the innovations implemented by the Giacomini Group, of which the Hotel San Rocco is a part. It combines the rigor of architectural features with high-tech functionality to protect na-

BOGOGNO

Just minutes from the Bogogno Golf Resort, we offer this magnificent, unique property of approximately 8,000 square meters of botanical gardens that revolve around two buildings and on the shores of a beautiful lake with water lilies and lotus blossoms with a thousand shades of pink.

The main villa, built around 1990 and arranged on one level and consists of an entrance that leads to a very bright octagonal living room overlooking the beautiful lake with two colonnades from which you can have lunch and rest, quiet and relaxation; connected to the living room we find the kitchen with dining area, two bedrooms with en-suite bathrooms, a cloakroom and a beautiful veranda.

On the opposite side of the lake is another magnificent independent building, built in the same year and built in colonial style, with a wonderful staircase that drops so far that it reaches to the water. The property consists of a large frescoed living room with fireplace, glazed all around, from which you can admire this wonderful seascape, a large kitchen with a glass roof, two bedrooms, a utility room and two bathrooms. There is also a large garage for two cars.

The property is unique in its kind. Perfect for those who love untouched nature, privacy, the sun and absolute tranquility. Gorgeous example of how you can combine nature and style.

REPORTAGE LA RIVIERA

La Meridiana

Luxury hotel in Garlenda - since 1978

The beautiful 5-star Hotel La Meridiana is located in the Italian region of Liguria, between Monaco and Portofino. In 1971, Luisa Berto commissioned the construction of the hotel after her sister Teresa Berto de Galleani had the nearby golf course, club house and houses along the square built. The entire hotel complex is inspired by the charm of the neighboring French region, Provence. Therefore, similar architectural styles and harmonious colors can be found again.

The name of the hotel «La Meridiana» was chosen in honor of the castle Castello del Carretto nearby, also called «la meridiana».

Already in 1977 the hotel opened its doors. Only a year later, it became part of the prestigious French hotel chain Relais & Chateaux. Since then, 40 years have passed and the hotel is no match for its reputation.

Hoteliers Edmondo and Alessandra Segre are passionate about every detail of the hotel. So they personally take a trained look at the decoration of the entrance hall and the 25 rooms. They also choose only the highest quality products for all areas of hotel service. For golf lovers, the hotel also offers a spacious 18-hole golf course. On the golf course itself, you can walk or use the golf carts provided by the hotel.

Also the sea is only 5 minutes away from the hotel. For a special excursion, you can take the hotel's own private boat to the beautiful sandy beach of Alassio with crystal blue sea. Due to the central location of the hotel, excursions to the Italian coast and the numerous surrounding castles are also possible. With our program „La dolce vita“ you can discover Italy in a traditional way during a tour with the Vespa or a Fiat 500 Cabriolet and bring a piece of Dolce Vita into your life!

Restaurant Il Rosmarino

Fresh pasta, oven-fresh bread and crunchy breadsticks, foccacia and typical Ligurian farinata. Traditional cuisine, home-made bakery and the highest quality ingredients, that's what we value when preparing our dishes.

In the dining room, the hotelier, Edmondo Segre, personally welcomes you and accompanies you on the culinary journey of discovery through Liguria. Always between traditional dishes and innovative creations.

All our ingredients are of the highest quality. That's why we serve fresh fish, regional Albenga vegetables and a selection of cheeses from the Alps. We also refine our dishes with fresh local spices: basil, thyme, sage and rosemary.

The host will also be happy to show you our wine list and advise you on request when choosing one of our exquisite quality wines. In addition to well-known wineries, you will also find wines from young, creative winegrowers and can thus benefit from a particularly wide variety. In summer we invite you to dine in a romantic atmosphere with candlelight and lantern light on our covered terrace overlooking our idyllic garden.

The Golf Club Garlenda is located in the valley of the Lerrone River, one of the most beautiful and picturesque of the Ligurian inland, surrounded by ancient olive and pine forests.

Inaugurated in 1965, the 18-hole course is fully integrated into the landscape and does not affect its natural beauties in any way. In the upper part of the routing you can enjoy a wonderful view over the cliffs of the sea and the Maritime Alps.

Albenga and Alassio are close by; In these holiday resorts with their fascinating history, you can live - so you can experience all the pleasures of this beautiful area and at the same time can dedicate yourself to your favorite sport.

The golf course was created over 60 years ago on the slopes of the mountains that glide gently down to the sea and winds through the landscape of the olive groves of the Val Gogna. To play well on this course, the accuracy and placement of the tee-shots are extremely important. Opened in 1928.

THE ART OF TRANSFORMATION

THE ART OF TRANSFORMATION WHAT MOVED YOU TO EMBARK ON AN ARTISTIC CAREER?

Since my childhood I have been drawing and creating universes, objects of my imagination. In 2002, after finishing high school, I decided to study at an art school in Parsons, the New School for Design, which also loved science, philosophy and psychology. I was able to develop a technique that is unique to me, the vehicle for expressing my philosophy and vision of the world. What really counts in this vocation is the passion that emanates from me during the creative process, as well as the satisfaction.

WHAT IS THE MESSAGE YOU WANT TO CONVEY THROUGH YOUR WORK?

The concept of abundance, transformation and harmony are the three aspects that are closest to my heart. A scientist named Albert Einstein once said: «The only source of knowledge is experience». So to experiment with these aspects, to see individuals be able to expand their consciousness, dispel stress and grow their aspirations, this is it. I believe that if we want to be successful, happy and productive, we must try to be the best version of ourselves and act in

accordance with our needs without external stress factors affecting us. Life is not an experience that is easy every day, but through the various obstacles that we come up against, we can learn to recognize ourselves.

Even if man may seem pessimistic because of his experiences of survival, we are most fulfilled and happy when we experience feelings of joy, love and fullness. My creations are designed to reflect an experience, such as a mirror that contains holistic energy elements that can eliminate stress and bring more peace, energy and serenity when in their presence. By taking the amalgam of a diamond, you reveal its brilliance by polishing it. Eastern culture knows how important it is to be present in the quest for perfection by listening to and seeking the divine.

WHAT TECHNOLOGY DO YOU USE TO BUILD YOUR CREATIONS?

I like to mix different techniques by mixing different cultures. A symbiosis between technology and nature is of central importance to me. This is how I see perfect harmony, the connection between what man has created and what nature has created. Technology allows my work to take shape like a virtual brain that can multi-dimensionally assemble different pieces of the puzzle that describe my vision. I photograph light and reality. I use painting and drawing to convey feelings and the fluid I feel. Digital art, as well as the composition and deconstruction

SAKURA

process, make it possible to transform matter to express my visions and my multisensory experience of the subject. Creation on this level takes place virtually with the transposition of light and materials that describe a scene. When this is defined, the phase of retransmission of this virtual reality in the physical world has begun. This requires the use of acrylic, watercolor, inks, varnish, glue, gold leaf, glitter or other elements necessary to restore the dimensions and brightness of the final work.

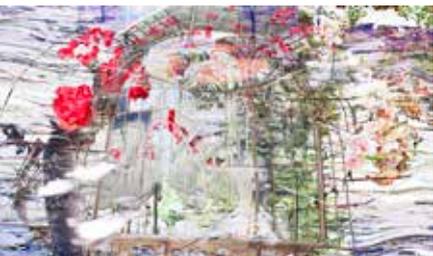

DO YOU HAVE PREFERRED TOPICS TO GET INSPIRED BY?

The cycle of life, the phases of transformation and the moments that reflect a divine quality of intense beauty fascinate me enormously. Nature and natural resources inspire me in all their forms, from the microcosm to the universe. I also admire Asia and the cultures of the East, especially Japan. I like the topics that are specific to physics, human experience, psychology of emotions, symbology and numerology.

WHAT ARE YOUR PREFERENCES IN TERMS OF MATERIALS AND FORMATS?

I like to use space, and that's why I like large surfaces that are like windows that open up to a new reality. Some subjects are also expressed in smaller formats, depending on what suits the work. I use so-called classical materials like canvas and paper, but I often experiment with other reflective or transparent surfaces like fabrics, plexiglass or even projections. I let the materials and my imagination lead to the best combination for any creation.
