2020 was a very special year for everyone and also for golf, for this reason we decided to come out with a single edition in preparation for the next golf season.

"Golf Piacere & Gusto" is not just golf but a lifestyle, for this reason we always focus on fashion and beauty with a refined selection of addresses and articles for the Ladies.

The first "Golf News" report is dedicated to our collaborations in the golf field and our choice of style.

The second report, however, to a glamorous event, where we are directly involved "Luxembourg Fashion Night".

Over the past few years we have developed our social media platforms, in particular Instagram, thanks to the precious work of our Ambassador Mrs Linda Pavlova, official testimonial for Golf Piacere & Gusto.

### THE LIVING CIRCLE

The Living Circle - The handpicked collection of first-class hotels and restaurants in the most uncompromisingly beautiful locations, run by passionate hosts. It consists of three hotels, three farms, a restaurant and a rustico. These are the Widder Hotel, the Storchen Zurich and the Castello del Sole in Ascona, the Schlattgut, the Terreni alla Maggia in Ascona and the Château de Raymondpiere in Vermes, the Restaurant Buech in Herrliberg and the Rustico del Sole in Ascona. Whether in the heart of Zurich, directly on the Limmat, embedded in the private park on Lake Maggiore or in the heights with a breathtaking view: All members of The Living Circle have a strong connection to nature and offer their

guests incomparable experiences. Rice, vegetables, fruits, of course wine and other noble plants - our farms conjure up garden fresh directly on your table.

### ARRIVE AND COME HOME

The Storchen is one of three very special houses that make up "The Living Circle". Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come together in the stork. Our restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

### WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

### A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

### STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to various renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivated relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

### VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box seat for the multifaceted spectacle Zurich has to offer.

## MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

## HOW ZÜRICH TASTES

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience.

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be spoiled by the exquisite "Sai" in front of a spectacular mountain background and tasting the personal creations of chef Stefan Jäckel and his team. The newest and most spectacular highlight in the Storchen is probably the rooftop roof terrace The Nest with a breathtaking view of the most beautiful city - Zurich. When the weather is nice, The Nest offers a Mediterranean-inspired enjoyment experience over the rooftops of Zurich. The Barchetta Bar on the ground floor attracts locals as well as guests from near and far - with freshly roasted coffee and light lunch menus during the day and expertly mixed cocktails in the evening. Finish - or start - the evening in the new Cigar Bar, where con-

noisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clearly during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

## ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the storck's top-equipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m<sup>2</sup>). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend our boardroom (35 m<sup>2</sup>), the Limmat room (36 m<sup>2</sup>) or the Werdmüller room (20 m<sup>2</sup>). The restaurant La Rôtisserie, the Barchetta Bar and the Cigar Bar can also be rented for events.

## A CITY LIKE A HOME

The «storck experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmat is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

## A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthaus and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless exclusive shops, many famous dining establishments and a nightlife scene that is well known across the country.

# ZURICH AS OUR INSPIRATION: THE CITY ON THE DISH

In the Zunftthaus zur Waag it is possible to dine and celebrate in a stylish old town atmosphere. Be inspired by Sepp Wimmer's hospitality in this historic house dating back to 1315. In the elegant, Zurich-style bourgeois room on the first floor, head chef Alain Koenig pampers you with Zurich classics and creative new creations. Among its most prestigious dishes is the Zürcher Geschnetzeltes with Butterrösti. From April to September, the

shady terrace on the car free Münsterhof invites to light summer dishes and ice-cold Lake Zurich wines. Enjoy the splashing of the Münsterhofbrunnen and the ringing of the church bells, while watching the swifts above the roof of the Fraumünster.

## WINE-GROWING IN ACCORDANCE WITH NATURE

The Cave du Chevalier Bayard offers a wide range of authentic, naturally produced quality wines.

### ABOUT US

As a third-generation family business, we continue the family tradition of our grandfather Jeremias Bayard and bring in new know-how.

### LOCATION

Varen is located on a terrace above the Pfywald in the park Pflin / Finges. This unique landscape is characterized by plenty of sun, low rainfall and barren, calcareous soil. The orientation and slope of the plots on the southern slope favored the formation of a deep root system, which allows the production of complex wines.

### HISTORY

The „Cave du Chevalier Bayard“ was founded in 1975. The majority of the founding members are children of Jeremias Bayard, who continued the tradition of their father's - encaveur. In the big family it is a matter of course to work for the company and to honor the family heritage.

Cave Chevalier Bayard engages in golf and is wine sponsor of the Swiss Golf Pro Supporter Club tournaments.

Spend pleasurable hours in a cozy atmosphere in our Carnotzet and join us on an expedition of our wine palette in red and white. Welcome!

# THE CAVE DU CHEVALIER BAYARD SAYS „ONE FOR ALL, ALL FOR ONE“

Rebmeister Bertrand Nominé and oenologist **Alexis Praz** are specialists, specialists with regard to oenology and the adequacy of the soil-grape climate. They are committed to the Chevalier Bayard winery, which is moved by a new dynamic, an energetic direction, very tense and classy wines.

## The grapes sublimate in the cellar

Alexis Praz, a 35-year-old Aosta thaler, completed his master's degree in oenology in Turin and has been vinifying at the Chevalier Bayard in Varen since the 2018 vintage.

During the tasting, the wines keep the promise of their author; a lot of breed, finesse, typical wines, with a beautiful personality, an expression of the grape and the terroir.

„I have a lot of freedom here and can produce wines with great excitement, freshness and el gance,“ says the happy Alexis Praz.

An examination of the soil, a selection of plots and partial refinements that Bertrand and Alexis had carried out together contribute to this new wine identity.

### HOTEL

This small, fine hotel is a house full of personality - for people who love to surround themselves with the beautiful things in life. Style, art and classic modern characterize the ambience. Your city retreat with 5 stars, 14 suites, 35 guest rooms and 4 luxurious apartments in the middle of Zurich's old town, close to the famous Bahnhofstrasse. The Widder Hotel is characterized by luxury, lifestyle and warmth - a home in Zurich.

### HISTORY AND ARCHITECTURE

9 houses, 1 hotel and 700 years of history in the heart of the old town: through-

out history, the nine medieval townhouses have been home to nobles and guild masters, artisans and merchants. They not only built and inhabited the buildings, but also decorated and changed them. The Swiss star architect Tilla Theus had the solution for the preservation of the nine historic houses and the simultaneous transformation into a luxurious, modern hotel. With the connection of the houses through passages with chrome, steel and glass, the Widder Hotel was opened in 1995 after a ten-year renovation. In this way, the 700-year history of the houses in the heart of Zurich can live on and continue to write with guests from all over the world.

### LOCATION

Zurich is an extraordinary city - and in the Widder Hotel you are right in the middle. Nature fans are rewarded after a short walk with a view of the lake and a great panorama of the Alps. Those who love shopping will find the famous Bahnhofstrasse in the immediate vicinity, but also Zurich's old town with its elegant and original boutiques. Not to mention Zurich's atmospheric alleys along the Limmat, its charming river baths and the many pretty cafes that enchant every visitor. The Widder Hotel is surrounded by unique hotspots that make your stay in Zurich a unique experience.

### ROOMS and SUITES

In the 35 rooms and 14 suites, no two accommodations are the same - here design meets the Middle Ages, from the design queen room, through the historic junior suites, to the penthouse suite with private rooftop terrace. The wooden ceiling beams, the antique tiled stove and delicate frescoes are supplemented with the latest technology and maximum comfort for an unforgettable guest experience.

### LUXURY RESIDENCES by Widder Hotel

Four exclusive luxury residences with maximum privacy and unbeatable views, less than 50 meters from the Widder Hotel. WATER • OXYGEN • ENERGY • HEALTH

### Oxywater - (not only) a golf love at first sight

Do you love this excellent laziness when playing golf? Gradually increasing energy that does not distract you, but gives you a feeling of balance, lightness and calm? Then you will love Oxywater from the Czech-Slovak manufacture, which is put on the market by the company p & m solution gmbh, Marbach SG and represented by many athletes. Linda Pavlová, international representative of the niche lifestyle, is captivated by the uniqueness of oxygen water, because the two most important components of life - water and oxygen - stand for beauty and health.

### There's a woman behind everything

A woman who conquered an aggressive type of cancer 12 years ago and fell in love with oxygen in all its forms, just during the annual oncological treatment. Her victory and conviction led to a change in her entrepreneurship and for 12 years she has been the largest and only oxygen center in Slovakia. This love ended three years ago in Oxywater, a so-called oral oxygen therapy (OOT) for on the go. OOT is the international name for oxygenated drinking water with a much higher oxygen content than in the usual water packaging. It is bottled for the company of Julianna Hložek Grmannová with a minimum content of 90 mg oxygen per liter of water. Normal water contains 8 mg of oxygen. Oxywater is still water and contributes to the immediate refreshment. Drinking oxygenated water proves to be a safe way of returning to the prenatal stage of humans.

### Trip to Switzerland

With zero calories and a quick effect (thanks to oxygen) on healing and inflammatory processes, it is brought to the Swiss market by Maria Kurz and Patrick Fenk from p & m solution gmbh, Marbach SG. "I love the product after reading Julianna's story and using Oxywater every day. My desire to bring this product to a similarly small, compact country was so strong that I feel great joy today when the young athletes from our Oxy Athletics team receive their awards together with our oxygen water," says Maria Kurz.

### The power of oxygen

Because of its healing properties, oxygen has always been used in aesthetic and rescue medicine, as well as in the care of burn victims. Every healthy cell needs it, every disease evades it. The hydrogen compounds in water enriched with oxygen enable the further binding of gases, especially the binding of oxygen. In 1960 it was discovered in Russia that the gastric mucosa takes up oxygen just like the alveoli. Mental skills are extremely important in any sport. If you are an athlete yourself, you know that the head can bring the decisive advantage more often. Our brain needs about 20% of the total oxygen content in our body. Oxygen stimulates the circulation of the blood, which improves the oxygen supply to the brain, the nutrient supply and the regulatory mechanisms in the body.

You can find more benefits and information at [www.oxywater.ch](http://www.oxywater.ch)

„If you want top athletic and intellectual performance, drink Oxywater!“

**HAMMAM**  
Already over one hundred years ago, our ancestors washed off the everyday dust in the Volkshaus. Today, the Turkish Hammam nourishes the soul in the city bath at the same time. Herbal steam baths and healing chalk wraps not only cleanse the pores deep, they also warm the mind - as well as the relaxation on the navel and the oriental refreshments in the relaxation room afterwards. Our insider tip are the original soap foam massages.

## STADTBAD ZÜRICH

Being there, enveloped by comforting warmth. There, where soft lights glow and exotic smells float. Where oriental hospitality of Swiss quality shakes hands. To be there, where the distance is in the home and the home in the distance.

### SAUNA

Turks, Russians and Native Americans have known for hundreds of years about the beneficial effects of the sweating ritual. A special treat is the additional massage with birch branches before jumping into the ice cold pool - for detoxification and natural stimulation of the circulation.

### SPA-TREATMENTS

Whether deep relaxation, beauty or health: the Hammam & Spa combines selected spa traditions. Classic and oriental massages relax and increase wellbeing. Ayurvedic treatments ensure detoxification and cleansing, thalasso therapies revitalize and tone up with the healing powers of the sea. And for a particularly radiant conclusion, offer our various beauty treatments.

INTERNATIONAL CLUBS

@therealindapavlova

The Dolder Golf Club Zurich was founded in 1907 and it is one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

#### 9-Holes Course

- PAR 60
- 3366 m
- Putting Green
- Restaurant

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

PASSION FOR CARS

**Benno and Susanne Krähenmann the company founders**

You're a little more than a car salesman. As a family business already in the 1st and 2nd generation, the Krähenmann's have been running their Italian car garage with passion and joy for over 30 years. The whole team of almost exclusively long-term employees shares this passion with them.

**Specialists with passion**

Our powerful workshop team solves your problems with enthusiasm and instinct. Quality and economy have 1st priority. By specializing in the brands Ferrari, Maserati, Alfa Romeo, Fiat and Abarth, we are a team with a lot of emotion for Italian products. Our primary goal is to do excellent quality work, which we can guarantee thanks to the latest diagnostic equipment and regular training of our specialists and diagnosticians. Repairing and caring for young cars from the 70s and 80s of these same brands is also a great passion.

**Our exciting offer**

We carry almost the entire range of Italian vehicles. In our show rooms we will show you an exciting selection from the smart Fiat 500 to the sporty Alfa Romeo models to the exclusive Maserati or the fiery sports cars from Ferrari. This enables us to deliver the right vehicle to our customers for every budget. We are convinced that you can develop the same passion for a Fiat 500 as for a Maserati or Ferrari sports car.

A permanent exhibition of at least 50 well-maintained used vehicles with an annual guarantee are also one of the attractions of our company. What is not in it, but according to the Krähenmann's corporate philosophy, is a natural privilege of the customer: Even after the purchase, you will be looked after in the same partnership as a new car buyer. Whether new, used or historic, Italian cars are always fascinating and passionate. We all associate sensations with the car: the Italians are creative, innovative, courageous and progressive - they know how to arouse emotions, because the heart always chooses with the head.

### Zurich region

In summer, Zurich is transformed into a large water park. Everyone spends their time on the water or at the lake. Swimming, wakeboarding, rowing and stand-up paddling (SUP) are popular summer sports that can be organized directly from the hotel's own pier. And the local rowing club right next door invites long-term guests to their regular courses and training sessions. Zurich is a popular destination all year round for planning various excursions to the surrounding mountains.

### Hotel

From the Old Town via Storchensteg to Thalwil: Hotel Alex on Lake Zurich is a new member of „The Living Circle“. The five-star hotel was opened in the summer of 2019 and is distinguished by its fantastic location directly on the lake and its modern, luxurious interior. With the five-star city hotels Widder and Storchen as well as the restaurant Buech and the Schlattgut farm in Herrliberg, a City & Lake Resort is being created where guests can enjoy both the vibrant city life with art and culture and the relaxed life in the countryside and on the lake.

The 44 elegant studios and penthouses with their own kitchens are also ideal for longer stays due to the generous living experience. The hotel spa with sauna, steam bath and vitality pool as well as selected massages and treatments creates space for relaxation and

recreation. Thanks to the Hotel Alex own jetty and the Storchen Zürich on the Limmat, guests can commute comfortably between the locations by shuttle service on the hotel boat, opening up a whole new range of services.

### History of Thalwil

Thalwil is a residential area. It is very popular because of its location and quality of life. First mentioned in 915, its history goes back to Roman times. In the Middle Ages, most of the income was generated by agriculture, viticulture, hunting and fishing. Thalwil also has the oldest wood cooperative in Canton Zurich and was known for its fabric dyeing factories in the last century. Today the economy consists mainly of small and medium-sized businesses and a wide range of shops. Thalwil has left most of its past behind and is now a commuter town with excellent public transport connections, low taxes and a good quality of life.

### History Building

The history of the building goes back to the year 1589. At that time, the Thalwil Shooting Club had built a shooting range and the Schützenhaus inn on the lakeside. After the shooting range was abolished, the name of the house changed to Krone. The Krone was demolished in 1952 and the Hotel Alexander was opened in 1958. The Hotel Alex Lake Zurich was built on the foundation walls of the Hotel Alexander and underwent a complete renovation and an extension with additional 22 guest rooms. Had the foundations of the Hotel Alexander been demolished, it would not have been accepted to build so close to the water, which makes the ALEX so unique. One has the feeling of being on board a ship or boat.

### Pop-up- Widder by the lake

Tino Staub will take care of the culinary well-being at the Hotel Alex. The Executive Chef of the Widder Hotel will serve you his excellent culinary creations at the lake. Until October 31, 2020 he will be presenting

the most popular dishes from his kitchen as a pop-up concept.

Staub says: „I am very pleased to be able to show my creations now also on Lake Zurich. I am particularly looking forward to November 1, 2020, when our guests will be able to enjoy the new gastronomy concept“.

### THE LIVING CIRCLE

The Living Circle – The handpicked collection of first-class hotels and restaurants in the most uncompromisingly beautiful locations, run by passionate hosts. It consists of three hotels, three farms, a restaurant and a rustico. These are the Widder Hotel, the Storchen Zurich and the Castello del Sole in Ascona, the Schlattgut, the Terreni alla Maggia in Ascona and the Château de Raymondpierrre in Vermes, the Restaurant Buech in Herrliberg and the Rustico del Sole in Ascona. Whether in the heart of Zurich, directly on the Limmat, embedded in the heights with a breath-taking view: All members of The Living Circle have a strong connection to nature and offer their guests incomparable experiences. Rice, vegetables, fruits, of course wine and other noble plants - everything conjures up our own farms fresh from the garden directly on your table.

## Art, Yoga & Wellbeing

Today, one needs more than ever to find calm, serenity and strength in every situation. As part of a healthy and challenging lifestyle, yoga and meditation come to mind. Yoga means to join, unite, to create a harmonious bond between the inner and outer world: mind, body and nature. For furthering this ritual, Fiona Life launched a line of yoga mats and clothing which can also be used for your daily meditation practice. Each design helps enhance your personal practice.

**Environmentally friendly** procedures are at the core of the brand. Adding to them **energy infused designs** to help alleviate pain, procure more peace, alignment and serenity. This combo not only makes you feel better, it also makes you look good inside and out.

A yogi defines his space with his mat. It's like a home away from home. For this very reason, finding a mat that speaks with you is essential. To cater to the needs of individuals, Fiona Life offers a wide range of options suitable for every level. Each mat is also double sided providing two different experiences and visuals all in one thick mat. No harmful glues or chemicals are used and they are produced in the United States.

For woman for example "breathe & nurture" offers this cocooning feel you long. Security, nurturing is offered on one end in a beautiful garden of eden design. When one needs a feeling of freedom, to concentrate on breathing and oxygenation, all you need is to turn the mat over to the breathy white and pink floral de-

sign. You can also use the mat by just laying on it to attune it's its wonderful healing properties.

Man, can on the other end find a mat to helps them feel more power and strength, which is something that the most challenged athletes look for. The strong kaleidoscopic structures and universes depicted will directly turn your switch on as soon as you roll out your mat.

The yoga clothing brings more art and energy onto the body. Rich, colorful and unique designs ornate the typical yoga attire. Each piece is made with a sport routine in mind, combining performance and comfort. Feel purity, bliss and embrace your femininity in the "White Blossom" print. Get back to life using "Life effervescence" crop top and leggings. You can mix and match each outfit with neutrals or combine prints. Let your personal style and expression shine using **Fiona Life unique yoga line**: the new yoga couture.

When I was 7 years old, and the years that followed, I would come home from school and go straight to my father's workshop, who worked at home. He was a freelance crimper for a major watch brand, and I would spend hours watching him transform an empty quadrant into a piece of art. And that's exactly what struck me, creating something beautiful out of nothing.

**A few years later, 6 years ago to be exact, I started making bracelets for myself, trying myself, finding techniques, acquiring them, until, in January 2020, I decided to go ahead and open my own brand, LP Creations.**

I later developed a great interest in concrete, namely the creation of concrete decorations. I am still testing, improving and perfecting my technique. It is a material that I find magnificent, noble and raw.

I use only noble materials and like to marry them together to give free rein to the imagination of future jewelry wearers. My greatest joy is when someone asks me to create for them. I get some information, then I use my creativity to try ten models if necessary until I read the surprise and satisfaction on the person.

# Césarée

PARIS

The CESAREE company was founded in 1980. The jewelry designer, Laurence COUPELON, inherited from her parents Richard Coupelon, architect, and Tita Coupelon decorator, great art lovers, a strong attraction for Asia.

Her constantly evolving creations range from raw ethnic inspiration to distinctive "couture" jewelry, which mixes natural materials with bronzed or silver metal. Their originality and their „touch“ have made CESAREE not only a name but also a very recognizable style which places her as the benchmark for ethnic jewelry in the fashion world.

Since our beginnings, our unique style has won over all fashion editors. Our jewelry has been the subject, for years, of many articles and very beautiful editorial publications in all the women's press (Vogue, L'Officiel, Le Figaro Madame, Air France Madame, Elle, Marie-Claire, Be, Grazia, Gala, Citizen K., Cosmopolitan). They are also present in decoration magazines such as Côté Sud, Côté Ouest, Elle déco. They also appear in the cinema, notably in the films of François Ozon, or even in television shows such as Télé Matin, etc.

Our style and our jewelry have often given us the opportunity to collaborate closely with the great couturiers like Nino Cerruti, Michel Klein, Agnès B, Cacharel, Kenzo and Sonia Rykiel with whom we have worked for ten years.

Our creations are also chosen by many French and foreign artists (Emmanuelle Béart, Claudia Schiffer, Françoise Xénakis, Agnès Varda, Arielle Dombasle, Marianne James, Marisa Bérenson, Patricia Kaas, Jodie Foster, Andréa Ferréol, Danièle Thompson) but also personalities from Go-

tha like Mouna Ayoub, Farah Diba, Tracey Amon or Rafaëla Aponte.

Faced with the growing success of its creations, CESAREE opened in 1996 a very beautiful boutique in Paris in the emblematic district of Saint-Germain des Prés.

**MAKUMAYU**  
ALPACA FASHION & LEATHER GOODS

MAKUMAYU is a fashion company founded in 2011 with headquarters in Switzerland, run by the fourth generation of the Palaco family from the Peruvian city of Arequipa.

The family is one of the pioneers in the trade in alpaca wool and began processing and exporting to Europe in the early 20th century.

The brand is composed accordingly of two central elements of the family history.

MAKU is derived from the name of the village Makusani, which lies at an altitude of more than 4'000 meters above sea

level, located in the Peruvian Andes. In this village, the Palaco family lived to buy quality alpaca wool. The alpaca breeders had to cross a river called MAYU on Quechua. In the 1960s, with the support of the family, a bridge was built in order to ensure a safe crossing for the alpaca breeders.

The company's close ties to the Peruvian highlands and alpaca breeders are also reflected in MAKUMAYU's social commitment and support for local projects.

# *A world-class museum in a historic private villa.*

## **The collector**

Oskar Reinhart (1885–1965) came from a wealthy trading dynasty in Winterthur and had close contacts with artists whom his father supported as patrons.

He himself began collecting art at an early age and retired from business at the age of 39 to focus on his passion. At the same time he acquired the villa „Am Römerholz“, where he lived, surrounded by the most impressive works of his collection, until his death in 1965.

He bequeathed the villa and the collection in the will of the Swiss Confederation, which opened the rooms to the public in 1970.

## **The collection**

Oskar Reinhart left behind one of the most important private collections of the 20th century. Outstanding paintings of French Impressionism and its predecessors in his collection lead a stimulating dialogue with masterpieces of older art.

The bow spans from Lucas Cranach the Elder. to Cézanne, van Gogh and the early Picasso. Among the approximately 200 works of art are top works by Géricault, Manet and Toulouse-Lautrec, as well as whole groups of works by Delacroix, Courbet, Corot, Daumier and Renoir. With the older works and their presentation in coordinated historical rooms Reinhart took up the model of French and German private collections. Oskar Reinhart assigned Impressionism the most significant achievement in the arts. In him, he recognized the enhancement of color and light to independent imagery.

Out of this thought, he developed the taste for the „picturesque“, which he *Massstab für die Beurteilung von Kunst erhob*. In Folge dessen betrachtete er die *Alten Meister* nicht als *Grössen ihrer Epoche*, sondern als *Vorläufer der Moderne*.

## **Park and Café in a unique atmosphere**

A historic park with old trees and important sculptures surrounds the property and can also be visited. The attractive café with terrace overlooking the garden invites you to linger and can be booked for special groups (eg. corporate events and family celebrations).

## **Guides**

Public and private tours. Foreign-language and thematic tours (collection, garden, etc.), art over lunch, art in the evening, guided tours and workshops for children, adolescents and families. For the further information see Webseite [www.roemerholz.ch](http://www.roemerholz.ch).

- Acoustic tours
- Audioguides in English, French, German, Italian, Japanese and Spanish.
- Free audioguide for children „with Oskar Reinharts great niece through the collection“ (suitable from 6 years).

# Andermatt

Four words describe the soul of the village:  
luxurious, natural, magical and mystical.

To get an idea of what it means by „mystic“, you can start by watching the video series „Mystic Mountains“ on the official website [www.anderstatt-swissalps.ch](http://www.anderstatt-swissalps.ch). Stories of enchanted mountains, of people who live there, love them, and have chosen the sustainability and harmony between innovation and tradition as pillars of urban development.

Andermatt, the pearl of the Orsera Valley at 1447 meters above sea level,

has won its bet with the future without losing its ancient soul of alpine village. It has developed into a year-round destination in recent months, with the opening of the new conference hotel Radisson Blu Reussen, with residences, its public indoor pool, its wellness and fitness area.

Then there are 8 apartment buildings and the Piazza Gottardo which is the new commercial heart of Andermatt, with its shops and restaurants.

Summer is upon us and there are great expectations.

The 3-times award-winning 18-holes “best Golf Course of Switzerland”, with its spectacular mountain surroundings, allows you to play golf in a Scottish atmosphere and has quickly become one of the most sought after in all of Switzerland.

Andermatt has reached important milestones, but there is still a lot to do and more to come: the concert hall will be inaugurated on June 16th with a great concert of the Berliner Philharmonie. There are plans to start building the third hotel, a family structure soon. At least 30 other apartment houses are also designed to be built soon. Of course, the opening last December of the ski connection Andermatt and Sedrun was another milestone that allowed the promoters to experience one of the best seasons ever.

With the two Gütsch-Express (Andermatt-Gütsch) and Schneehüenerstock-Express (Oberalppass-Schneehüenerstock) cable cars, the operators open a new hiking and biking paradise with restaurants on both sides. In addition, another gondola from Sedrun to Cuolm is ready to widen the hiking field towards Disentis.

Andermatt is a little paradise in the Alps: investment opportunities are safe here, the quality of the construction is excellent and there are activities and options for all kinds of guests.

## LES CONNAISSEURS THE CLUB

### - What/Who is LesConnaisseurs LCC?

LesConnaisseurs, founded back in 2016, is a private cigar&event member club, dedicated to convene and connect people with an affinity for cigars and a passion for the good things in life.

### - How did you have the idea of founding LCC?

For me people and interaction have always played an important role in my life. I am a strong believer that connecting, interacting and learning are key characteristics for development, extension of knowledge and therefore the base-line to become a better person. This said, I have noticed that these characteristics are often not respected or not paid enough attention in our fast changing world. When I have started to establish the idea and talked to my co-founders, my goal was to create an environment, where people can easily connect, get access to unique and personal insights and exchange their experiences. With every co-founder joining, the idea has been further developed and improved. This philosophy you can still observe till today. It has even become our DNA - with every new member joining, the idea is further developed and our story continued.

### - Can you describe the concept behind LCC?

Our Club philosophy is to grant access, share unique insights and enable to experience effortless the fascinating worlds of craftsmanship, design and passion and to introduce members to the visionaries, entrepreneurs and aficionados behind. Therefore, our concept fully carry-on the original believes and intentions to connect, interact and learn - this in a smooth and relaxed environment with fascinating brands and people.

We aim to become the platform which connects people and brands with a high affinity for the nice things in life. Our members typically are eager to not get the perfect polished marketing wash-up, but rather have a deep interest to receive an unique and personal insight behind the curtains, which normally you don't have or don't get. At the same time, this is also extremely

appealing for brands too, as they get to know not only prospects, rather can interact directly with potential long-term clients with a strong connection to - and interest in the brand.

You can perfectly summarize our concept with the following: „...Worst-case you will have enjoyed a relaxed evening with a fine cigar, nice drinks and lively talks in good company - But maybe you will experience an unique insight and personal encounter which you didn't expect...“

**- What are your visions as President of LCC for the future?**

To continue our journey and further establish a strong network and environment, helping our members to get an unique and unexceptional gateway to their interests and passions. Therefore, we also continue to invest into new technologies and improve our (digital) platform to enhance our members experience. This, as foundation to enable connection, accessibility and exchange in both, on- and offline.

Personally, I am very much looking forward to meet and exchange with many new interesting members to learn on how we could continue our story.

**Gilbert Bénédict Augustin de Montsalvat is one of those characters that would need to be invented if they did not already exist. He was born in 1920 in the Bourgogne, son of Hugo Comte de Montsalvat and Arlette Baronesse de Fontainville and attended high school between 1932 and 1937 in Paris.** Until 1943, he studied history, philosophy and English literature at Cambridge. In 1938 he became acquainted with Sigmund Freud in London. In 1942, Montsalvat had a severe car accident and was in a coma for several weeks. After his studies, he worked for the French exile government in England until 1945 and returned to France in 1946.

Between 1946 and 1949, he worked in his father's business, which he sold in 1950, thus securing for himself a life-long pension. Until 1955, he lived in Cuba, where he witnessed the Putsch of Batista against Prío Socarrás. In Cuba, his love for tobacco and for cigars was awakened and here he began to establish an extensive documentation on this topic. In Havana, Montsalvat was even humorously called "El Ministro de los Puros".

After a year as a language teacher in Manila, he bought an apartment in Geneva in 1956, which thereafter became his permanent domicile from which he travelled extensively. 1958/1959, after a sojourn in Honduras, he served as cultural attaché for the French Republic in Mexico. In 1959 and 1960, he travelled to Cuba numerous times and from there he visited Santa Domingo and Nicaragua. Due to his outstanding reputation as a cigar encyclopaedist, he became personally acquainted with Ché Guevara and Fidel Castro before long. It was during this stay that the "Cuban Sonnet" was written. Because Montsalvat was friends with the poet Paul Celan, rumour had it that he had translated Montsalvat's sonnet into German.

**In view of the low literary value of the „Cuban sonnet“, this story is probably just a legend. From 1961 until 1965, he stayed in Geneva, Washington and**

**Connecticut, where he hoped to figure out the secret of the Connecticut shade cover leaf.** In 1962, at a diplomat's ball, he became acquainted with John F. Kennedy, whom he subsequently counseled in all things related to cigars. The years 1966 to 1970, Montsalvat spent alternately in Geneva, Indonesia and on the Philippines, where he deepened his knowledge of far-eastern tobacco planting. Until 1974, numerous sojourns in Geneva and Cuba followed, where he developed the main parts of his grand „Cigar Stories“. Between 1975 and 1977, Montsalvat again concentrated on South and Middle America. He did extensive field studies on the dissemination of the *Nicotiana rustica* in Brazil and Mexico.

# A short story of Kochut Wood

**The new stage of the Kochut brand began in early 2017.**

We were looking for a special table that could fit the showroom with our decorations. It was hard to find the right table. So, we decided to make it on our own. That's how one day appeared an interesting idea — the production of the author's wooden furniture with epoxy resin, which led to the creation of a full-fledged workshop.

**Today, we produce our Interior Design & Home Decor items in Ukraine and send them to the different parts of Europe and all around the world.**

**You will find here:**

Dining tables, side tables, coffee tables, writing tables, console tables, and many others. We also manufacture wooden products such as cabinets, chests of drawers, cabinets, facades, kitchen boards, and even crystals and lamps.

ITALIAN WOOD PUTTERS

100% ARTISAN MADE  
ONLY THE BEST WOODS  
COMPLETELY CUSTOMIZABLE  
HANDMADE IN ITALY

HARDWOOD PUTTERS was born in Italy from the idea of joining the world of golf with design carpentry. Specifically, the intention is to create a range of putters that are not only functional and in line with the specific R & A and USGA, but also small objects of art. The materials used are of the highest quality and the very special weight distribution, combined with a deliberately vintage design, guarantee the customer to have in his hands a unique and extremely effective product on the green. Wood, in Hardwood Putters, is therefore not only synonymous with nature, history and return to the past, but also and above all of effectiveness.

WHY CHOOSE HARDWOOD PUTTERS:

- **Innovative technology**
- The wood provides a **softer impact** on the ball and greater control of the trajectory.
- The **greater lightness** of the wood compared to the metal allows a greater freedom in the distribution of weight, and to act in such a significant way on the overall balancing of the head. All this allows to increase the hot spot from a few millimeters of a normal putter to over

2 cm wide, forgiving in part the error.

• **A tailored suit**

It is not the customer who has to adapt but, on the contrary, it will be the customer to choose all the features he wants his putters. A custom-made suit, therefore, from the type of shaft, to the weight, to the woods used, to the inlays, etc.

• **Each putter is a unique piece**

Great care for every detail and request give the opportunity to have in your hands a unique and exclusive product.

• **It is completely handmade in Italy**

Our philosophy is to give the customer the best, and do it without compromise. The product is therefore made entirely by hand in every phase, without the aid of numerical control machines. An artisanal product in the true sense of the term.

• **An unmatched look**

The solid wood used comes from all over the world and gives the putter a unique appearance and an inimitable color.

## Cozzo Mario winery

The **Cozzo Mario** winery stands on the gentle hills of the Langhe near Dogliani, a land of great wines for time immemorial.

The historic heart of the estate remains Cascina Lasagna, a farmhouse dating back to the XVIII century, but with the addition in recent years of the nearby Cascina Braida, the estate vineyards now stretch out over around 16 hectares where red, white and rose wines are produced from excellent grapes such as Dolcetto, Barbera, Nebbiolo and Arneis. Since the foundation of vineyard in 1827, the Cozzo Mario family have been producing wines with a traditional, yet innovative spirit and with a great respect for the sustainable environment. We hope to bring you the taste that have been developed passionately over the six generations.

My family's great challenge and adventure has been to create this wine. Our rare grape-variety Piede Franco survived Phylloxera, keeping its aromatic scent, as well as its rich and unique taste. Pregliasco offers an intense and sophisticated character that only grows over time, an elegant taste that is a poetic reminder of ancestors who led this historic winery. We produce Pregliasco from exclusively selected harvest, with only **2,300 bottles** and 50 magnum available after three years of aging.

In 1956 the Circolo Golf Torino moved from „La Maddalena“ to „La Mandria“. The hilly site, albeit with nine holes located within a pleasant framework, has been for some time close to the members. Giovanni Nasi, former President, his wife Marinella and the Council have long since found the land on which to move. The architect John Morrison builds the new eighteen holes and the entrepreneur Attilio Biral erects the first club-house. The new Circle is beautiful, full of trees, vegetation and water. There are no houses and everything is based on golf. However, there are some objective difficulties of management, created by the limited number of members. It will be the Piemonte Sport, in 1977, thanks to Sergio Pininfarina to solve the problem and to permanently allow the Club to grow. The birth of Piemonte Sport allows you to find yourself with a considerable financial availability that in a first time will serve to fill the field and to better manage the workforce and then subsequently lead to the purchase of the land.

G.C.Biella – Le Betulle, founded in 1958, has in the golf course, framed in a landscape of rare beauty, its strongest point. Over many years G.C. The course, designed by British architect John Morrison, is a typical example, rarely found in this country, of "English style" layout, very "environment-friendly". Silver birches, chestnut trees and centuries old oaks frame the eighteen holes with colourful backdrops that change with each season. Practice facilities are available, consisting of two practice putting greens, a practice hole complete with bunkers, chipping and pitching greens and a driving range with grass tees and sheltered practice boxes.

Inside the Club House, the simple but refined furnishing and wooden flooring pierced by spiked shoes give a feeling of warmth. The Lodge, aesthetically delightful, offers very comfortable rooms with old style furnishing, perfectly in sintony with the Club House.

# HOTEL-CLUBHOUSE CASTELCONTURBIA

Our establishment is set in the splendid surroundings of golf club Castelconturbia, a few km away from lake maggiore and lake d'Orta and only 20 min from Milano Malpensa airport. It offers 6 single and 13 double rooms, elegantly furnished with all comforts and free wi-fi in all the club house areas. En-

joy our rich and full breakfast, in the summer served on the terrace overlooking the greens. Our restaurant's menu lists an interesting variety of traditional regional Italian specialities and international dishes with a choice of the best local wines. A 20% discount is offered to our clients on 10 neighboring golf courses.

The Golf Club Castelconturbia was founded in 1898 in Piedmont and was one of only 2 existing golf courses in Italy. The famous American architect Robert Trent Jones senior designed and built the modern 27 - hole (3x9). In perfect harmony between old trees, streams, lakes and hilly terrain this is in his opinion his most successful work. The three paths lead to the terrace of the clubhouse, a fantastic place to relax and enjoy with a wonderful view of Monte Rosa. Newly opened in 1987, this golf club hosted the Italian Golf Open 1991 and 1998 twice.

## SaKaNaNa® – A Message of Love

I create human connections through my paintings on canvas and more accurately through my hand-painted products, called SaKaNaNa® – A Message of Love. I wanted my joyful, sexy, inspiring, incredible feminine paintings go outside and so I decided to paint directly on leather bags (or vegan on request). Each bag is a Unique Piece of Art, like a fingerprint. You can have several models of bags, but the difference will always be made by the painting on them. I have developed more than 60 themes of my "NaNas".

I believe that my paintings and my SaKaNaNa® creations can affect an immeasurable number of people and events. **I view my work as an honour, a privilege, and a mission** to do what I do every day, with love, joy, and smiles. As of the 1 September 2020, SaKaNaNa® will contribute to both the Luxembourgish association against moral harassment and stress at work Mobbing asbl, and the Professors Without Borders International Foundation, co-created by Tessa Antony-de Nassau, by giving them a percentage of the selling price per bag and per painting sold.

**Each person investing in a SaKaNaNa® and/or in a painting by Claire-Lise Backes will have supported women and men suffering at work from any form of harassment, and will have provided higher education opportunities for students around the world.**

Just like a fingerprint, each SaKaNaNa® is unique.

SaKaNaNa® subtly and elegantly disrupts the rules; it breaks the ice during encounters, meetings, attracts glances, triggers smiles and generates conversations.

SaKaNaNa® unites people, cultures, men, women, and children.

**The Nikka collection will be launched during Luxembourg Fashion Week.**

It is with the desire to combine elegance and practicality that Charlotte de la Porte created La Gräfin.

What woman has never said to herself in front of a selection of «I like it, but ...» bags. These are the women La Gräfin is addressing. Those who already have enough black, brown, plain,... bags in their closet. Those who cannot find bags that combine practi-

cality, elegance and originality.

La Gräfin bags are bags whose shape is validated by a large panel of women for practicality, mixed with a very personal design, and color!

The Nikka collection was designed because I have always found that matching my dog's accessories (collar and leash) to my bag is the height of elegance. It marks the spirits! The choice of the name of the collection was self-evident, my dog being the mascot of La Gräfin since the beginning of the brand.

Each model is made in a limited edition, the

number is written on its card, and is registered in the name of the person for whom it is intended.

The La Gräfin woman can be found in the name of the brand.

At the origin of the name, she is a heroine of a novel that we like to evoke among friends. She is a strong, independent woman, respecting conventions in order to better break them.

**The Gräfin has become an affectionate nickname.**

**Today that nickname has become a name, a brand.**

The Gräfin, through its bags and accessories, reminds us that we are all unique, all different, and we should be proud of it! Let's stand out, dare to wear color when others wear black, or dark... Just because we want to!

**“BE PROUD  
TO BE  
UNIQUE”**

«Monica Création is the certified brand of my collections. But more than a line of clothing, it embodies a state of mind, an ideology. Namely that the African models beyond the diversity of colors give off strength, abnegation, hope, generosity. By the mixture of styles, techniques and of my two cultures (African and European) Monica Création dresses women above all to underline her beauty and praise her specificity».

### History

«The concept of Monica Création emerged after my trip to the DRC (Democratic Republic of the Congo) where I had just paid tribute to the mother who gave birth to me. My aesthetic is quite simply a permanent search for the materialization of his courage and his big heart. A requirement for perfection».

Fashion week is over in the town of Dudelange. Retailers from Dudelange shared the catwalk with several Made In Luxembourg designers.
