THE LIVING CIRCLE

The Living Circle - the hand-picked collection of first-class hotels and restaurants in the uncompromisingly most beautiful locations, run by passionate hosts, consists of four hotels, three farms, a restaurant and a rustico. These are the Widder Hotel, the Storchen Zürich, the Alex Lake Zürich and the Castello del Sole in Ascona, the Schlattgut, the Terreni alla Maggia in Ascona and the Château de Raymondpierre in Vermes, the Buech restaurant in Herrliberg and the Rustico del Sole in Ascona. Whether in the heart of Zurich, directly on the Limmat, embedded in the private park on Lake Maggiore or at a height with a breathtaking view: All members of The Living Circle have a strong relationship with

nature and offer their guests incomparable experiences. Rice, vegetables, fruits, of course wine and other noble plants - our own farms conjure up everything freshly garden directly on your table.

ARRIVE AND COME HOME

The Storchen is one of four very special houses that make up "The Living Circle". Located in the heart of Zurich, the hotel embodies the essence of the city and with each visit, the inspiring liveliness of this place opens up anew. For centuries people have come together in the stork. The restaurants and bars attract visitors and locals alike, and are of historic importance to the city. Whether on a business trip or simply for pleasure: we invite you to enjoy the hospitality of the stork in a relaxed way.

WHERE THE STORK IS LANDED

Long ago, a pair of rare black storks landed on the roof of the original hotel. A legend was born - and with it the name of the hotel. For centuries, the Storchen has been the epitome of warm hospitality and personal service in the heart of Zurich's historic Old Town. Let yourself be pampered and discover the city.

A BRIDGE BETWEEN HISTORY AND TRADE

The location of the stork at the narrowest point of the Limmat is of great historical and logistical significance. As a historical witness, the stork reflects the history and stories of the city of Zurich. The hotel marks the point where trade routes began and journeys began. Each window offers breathtaking views of centuries-old architecture, bringing the incomparable energy of the city to life again and again. Thanks to its central location on Weinplatz, you can find some of Zurich's most popular attractions in the immediate vicinity. In addition, a labyrinth of winding streets and hidden squares just waiting to be discovered.

STYLE HAS TRADITION HERE

The present stork was completed in 1939 and different architectural styles testify to various renovations. The recent redesign of the house combines modern aesthetics with traditional details - the result is an interior that is as comfortable as it is refined. Noble textures, fine fabrics and luxurious marble combine to form elegant rooms that invite you to cultivated relaxation. The historical heritage of the stork has been carefully preserved, so that it survives the time.

VIEW WITH ROOM

Surrounded by breathtaking views, luxurious details and modern amenities harmoniously come together. Each room offers unique views of the Limmat or the picturesque old town of Zurich. Amidst finely tuned colors, contemporary furniture and the finest materials, the Storchen offers a luxurious box seat for the multifaceted spectacle Zurich has to offer.

MODERN DESIGN IN MANY FACETTES

From spacious suites to family rooms: The accommodation options in the Storchen meet a wide variety of travel needs. Each stay at the Storchen is characterized by fascinating views, elegant decor and modern facilities. Detailed, hand painted nature motifs on the walls meet contemporary furniture and furnishings. This creates clear, modern spaces that are both luxurious and comfortable. The exquisite details combine with a pleasant palette of neutral hues and targeted accents to create a wonderfully relaxing retreat.

HOW ZÜRICH TASTES

The Hotel Storchen has always been a meeting place. This hospitality is still to be felt today in its restaurants and bars and makes the enjoyment an experience.

In the restaurant La Rôtisserie, a spacious terrace overlooking the river and the Grossmünster provides a unique setting for moments of indulgence at any time of the day. The menu entices with innovatively interpreted classics, freshly prepared with local ingredients. Let yourself be spoiled by the exquisite "Sai" in front of a spectacular mountain background and tasting the personal creations of chef Stefan Jäckel, awarded 16 GaultMillau points and 1 Michelin star, and his team. The newest and most spectacular highlight in the Storchen is probably the rooftop roof terrace The Nest with a breathtaking view of the most beautiful city - Zurich. When the weather is nice, The Nest offers a Mediterranean-inspired enjoyment experience over the rooftops of Zurich. The Barchetta Bar on the ground floor attracts locals as well as guests from near and far - with freshly roasted coffee and light lunch menus during the day and expertly mixed cocktails in the evening. Fin-

ish - or start - the evening in the Cigar Bar, where connoisseurs accompany fine cigars with a glass of rare rum or cognacs. A collection of guild coats of arms reveals here the connection of the hotel to the oldest fishermen and Schifferzunft of Switzerland, whose guild people gather here since 1939. The importance of the hotel as a historic meeting place is highlighted most clearly during the three-year-old Schifferstechens, organized in memory of a similar tournament from the Middle Ages together with the Limmat Club Zurich.

ROOMS THAT WANT TO BE CELEBRATED

Whether for a corporate event or a private party: the Hotel Storchen offers the right ambience for your event, from sumptuous banquets to business conferences: the stork's top-equipped halls can be adapted to any event. The largest of the four rooms is the Salon Littéraire (42 m²). With parquet flooring and an impressive stucco ceiling, it offers a stylish setting and is ideal for larger events. For small meetings and events we recommend the boardroom (35 m²), the Limmat room (36 m²) or the Werdmüller room (20 m²).

A CITY LIKE A HOME

The «stork experience» goes far beyond the walls of the hotel and captures the essence of Zurich in all its diversity. The Limmat is a picturesque backdrop for the hotel - the view sweeps over the river far into the distance. Enjoy cozy hours at the Barchetta Piazza and experience the unique Zurich lifestyle at close range

A UNIQUE CITY AWAITS YOU

Whether culture or gastronomy: Zurich has much to offer - for guests as well as for locals. Discover the famous art collections of Switzerland in the permanent exhibitions of the Kunsthau and the Rietberg Museum. Experience unforgettable orchestral concerts in the Tonhalle Zurich. Or visit the magnificent Grossmünster - landmark of the city - and the nearby Fraumünster. In addition to the city's cultural attractions, you will find countless exclusive shops, many famous dining establishments and a nightlife scene that is well known across the country.

HOTEL

This small, fine hotel is a house full of personality - for people who love to surround themselves with the beautiful things in life. Style, art and classic modern characterize the ambience. Your city retreat with 5 stars, 14 suites, 35 guest rooms and 4 luxurious apartments is located in the middle of Zurich's old town, near the famous Bahnhofstrasse. The Widder Hotel is characterized by luxury, lifestyle and warmth - a home in Zurich.

HISTORY AND ARCHITECTURE

9 houses, 1 hotel and 700 years of history in the heart of the old town: through-

out history, the nine medieval townhouses have been home to nobles and guild masters, artisans and merchants. They not only built and inhabited the buildings, but also decorated and changed them. The Swiss star architect Tilla Theus had the solution for the preservation of the nine historic houses and the simultaneous transformation into a luxurious, modern hotel. With the connection of the houses through passages with chrome, steel and glass, the Widder Hotel was opened in 1995 after a ten-year renovation. In this way, the 700-year history of the houses in the heart of Zurich can live on and be written on by guests from all over the world.

LOCATION

Zurich is an extraordinary city - and in the Widder Hotel you are right in the middle. Nature fans are rewarded after a short walk with a view of the lake and a great panorama of the Alps. Those who love shopping will find the famous Bahnhofstrasse in the immediate vicinity, but also Zurich's old town with its elegant and original boutiques. Not to mention Zurich's atmospheric alleys along the Limmat, its charming river baths and the many pretty cafes that enchant every visitor. The Widder Hotel is surrounded by unique hotspots that make your stay in Zurich a unique experience.

ROOMS and SUITES

In the 35 rooms and 14 suites, no two accommodations are the same - here design meets the Middle Ages, from the design queen room, through the historic junior suites, to the penthouse suite with private rooftop terrace. The wooden ceiling beams, the antique tiled stove and delicate frescoes are supplemented with the latest technology and maximum comfort for an unforgettable guest experience.

LUXURY RESIDENCES by Widder Hotel

Four exclusive luxury residences with maximum privacy and unbeatable views, less than 50 meters from the Widder Hotel. The unique apartments in medieval walls, antique wood, equipped with the most modern, classic design offer a home that meets the highest demands. With a view of the historic Lindenhof and famous Renweg, Zurich is discovered from a completely different side.

RESTAURANTS AND BARS

Widder Restaurant

In the Widder Hotel, eating becomes an experience. In the heart of the Aries, the exceptional culinary talent Stefan Heilemann, awarded two Michelin stars and named Chef of the Year 2021 by Gault-Millau, together with his long-time crew, seduces them with exciting creations. Straightforward dishes that are always focused on the taste and surprisingly exotic aromas let the connoisseur float to the next culinary cloud. The charming and attentive service, led by sommelier Stefano Petta, completes the gourmet experience in the Widder Restaurant.

Widder Bar

In the Zurich cult bar you will find space and time for a quick lunch, an enjoyable afterwork drink and not to mention the late night cocktail in the Zurich hotspot. Passionate hosts spoil you with creative cocktail combinations or the largest whiskey selection in town. The Widder Bar is the ultimate avant-garde hangout.

Boucherie AuGust

The Boucherie AuGust, located directly on Rennweg, is probably THE address for hearty carnivores and curious tasters. Here you can enjoy classic meat and sausage specialties, such as boiled beef salad, meat cheese and homemade pies, while in winter you can watch the hustle and bustle on the Rennweg through the large window fronts or sit on the terrace in the middle of the action in the warm summer months.

MEETING AND CELEBRATING

There is always a lot to celebrate. Whether anniversary, birthday or simply life itself - the Widder Hotel turns your idea into an event in the seven unique rooms. From the charming Tatzfuss room for your workshop, to the charming Erzberg room for your birthday party, to the 220 square meter piece of jewelry, the Widder Hall, nothing is impossible for your gala night. Your ideas and wishes will be implemented with a lot of passion by the whole team and the impossible will be made possible.

The Dolder Golf Club Zurich was founded in 1907 and it is one of the oldest golf clubs in Switzerland. The private 9-hole course is located in the area of the city of Zurich and is idyllically embedded in the forest of the Adlisberg. Guests are welcome. Tee times are to be agreed through the secretariat. The course is located on the southern slope of the Adlisberg.

For this reason, the many inclines make the place, despite its clarity, a physically and mentally challenging experience. 2004/05, the place was gently rebuilt and renewed all greens. The 9 hole course can be played in two passes. The deductions remain the same in both rounds. Slopes, stepped greens, bunkers and old, dense trees complicate the game. The course is not very long, but the greens are small and well defended. Precision is therefore more important than length.

PASSION FOR CARS

Benno and Susanne Krähenmann the company founders

You're a little more than a car salesman. As a family business already in the 1st and 2nd generation, the Krähenmann's have been running their Italian car garage with passion and joy for over 30 years. The whole team of almost exclusively long-term employees shares this passion with them.

Specialists with passion

Our powerful workshop team solves your problems with enthusiasm and instinct. Quality and economy have 1st priority.

By specializing in the brands Ferrari, Maserati, Alfa Romeo, Fiat and Abarth, we are a team with a lot of emotion for Italian products. Our primary goal is to do excellent quality work, which we can guarantee thanks to the latest diagnostic equipment and regular training of our specialists and diagnosticians.

Repairing and caring for young cars from the 70s and 80s of these same brands is also a great passion.

Our exciting offer

We carry almost the entire range of Italian vehicles. In our show rooms we will show you an exciting selection from the smart Fiat 500 to the sporty Alfa Romeo models to the exclusive Maserati or the fiery sports cars from Ferrari.

This enables us to deliver the right vehicle to our customers for every budget. We are convinced that you can develop the same passion for a Fiat 500 as for a Maserati or Ferrari sports car.

A permanent exhibition of at least 50 well-maintained used vehicles with an annual guarantee are also one of the attractions of our company. What is not in it, but according to the Krähenmann's corporate philosophy, is a natural privilege of the customer: Even after the purchase, you will be looked after in the same partnership as a new car buyer.

Whether new, used or historic, Italian cars are always fascinating and passionate. We all associate sensations with the car: the Italians are creative, innovative, courageous and progressive - they know how to arouse emotions, because the heart always chooses with the head.

Zurich region

In summer, Zurich is transformed into a large water park. Everyone spends their time on the water or at the lake. Swimming, wakeboarding, rowing and stand-up paddling (SUP) are popular summer sports that can be organized directly from the hotel's own pier. And the local rowing club right next door invites long-term guests to their regular courses and training sessions. Zurich is a popular destination all year round for planning various excursions to the surrounding mountains.

Hotel

From the Old Town via Storchensteg to Thalwil: Alex Lake Zürich, located directly on the shores of Lake Zürich, is the newest member of "The Living Circle". The five-star hotel was opened in the summer of 2019 and is distinguished by its fantastic location directly on the lake and its modern, luxurious interior. With the five-star city hotels Widder and Storchen as well as the restaurant Buech and the Schlattgut farm in Herrliberg, a City & Lake Resort is being created where guests can enjoy both the vibrant city life with art and culture and the relaxed life in the countryside and on the lake.

The 44 elegant studios and penthouses with their own kitchens are also ideal for longer stays due to the generous living experience. The hotel spa with sauna, steam bath and vitality pool as well as selected massages and

treatments creates space for relaxation and recreation. Thanks to the Alex Lake Zürich own jetty and the Storchen Zürich on the Limmat, guests can commute comfortably between the locations by shuttle service on the hotel boat, opening up a whole new range of services.

History of Thalwil

Thalwil is a residential area. It is very popular because of its location and quality of life. First mentioned in 915, its history goes back to Roman times. In the Middle Ages, most of the income was generated by agriculture, viticulture, hunting and fishing. Thalwil also has the oldest wood cooperative in Canton Zurich and was known for its fabric dyeing factories in the last century. Today the economy consists mainly of small and medium-sized businesses and a wide range of shops. Thalwil has left most of its past behind and is now a commuter town with excellent public transport connections, low taxes and a good quality of life.

History Building

The history of the building goes back to the year 1589. At that time, the Thalwil Shooting Club had built a shooting range and the Schützenhaus inn on the lakeside. After the shooting range was abolished, the name of the house changed to Krone. The Krone was demolished in 1952 and the Hotel Alexander was opened in 1958. Alex Lake Zürich was built on the foundation walls of the Hotel Alexander and underwent a complete renovation and an extension with additional 22 guest rooms. Had the foundations of the Hotel Alexander been demolished, it would not have been accepted to build so close to the water, which makes the Alex Lake Zürich so unique. One has the feeling of being on board a ship or boat.

Restaurant Alex

The Alex restaurant is the heart of the hotel and combines in an uncomplicated yet elegant way Tino Staub's aromatic cuisine with an urban flair. A new hotspot in Thalwil that

invites you to linger and enjoy: whether for breakfast, a casual lunch or a lifestyle dinner.

The Living Circle

The story of the **Wagner Arte workshop** began in the winter of 2005 thanks to the passion the two sisters shared for fine arts and for this craft. Painting on ceramics is an **old Romanian tradition**, but Wagner Arte lifted it to the rank of art and even brought it into contemporary, thus becoming a go-to place in Bucharest and the entire country for gifts, decorative furnishings and accessories.

Most of our creations greet you with beautiful classic elegance and originality – all results of the miniature paintbrush strokes of our talented signature **artist Ana Wagner**, along with her wonderful artist collaborators and her own sister, Irina Wagner who is the manager of Wagner Arte family business.

Over the past years, Wagner Arte emphasized **luxury, hand-made and limited edition** pieces of exquisite refinement, true collection pieces that can be passed on from generation to generation. The workshop, however, does continue to produce objects in larger series at moderate prices, using the decalcomania technique.

All Wagner Arte products are made manually, piece by piece, with great attention to detail. The porcelain is either hand painted or decorated through decalcomania. For this reason, every piece made in our workshop will have its own story and fingerprint, even if it is part of a collection. The jewelry which is Ana's latest passion, evolved from just painted porcelain into more **luxurious pieces with a mix of porcelain and gold, platinum, silver, precious stones and pearls.**

human_highness

Human Highness is a luxury sustainable womenswear brand that celebrates balance, creativity and timeless beauty in simplicity. It's a belief in elegance with a touch of a super heroic upliftment. For us it's important to work closely with the artisans who are making our products and we choose materials based upon sustainability and creativity. Each piece is handcrafted and painstakingly tailored in Estonia, meaning the journey from sketch to garment is minimized to be based in one small country embraced by its beautiful nature. We are in no way perfect and will never claim to be but aim to be transparent and hold ourselves accountable to you - if we together empower each other to be centered by love then only good can grow out of it. The brand was born out of the friendship of Tessy Antony De Nassau and Milli Maier. Having met years ago in London - one of the capitals of fashion - they both instantly felt that they have a shared energy that could be formed into something inspiring.

was never a dress". We've all seen the woman in the triangle dress that marks women's bathrooms. But what if that triangle silhouette isn't really a dress and more like a cape? Human Highness played with the idea and added a word "just". They created a cape suit that can be transformed into a dress. It gives a versatile use for the garment and adds a value in a sustainable way where one product has more use. So next time you go to a public bathroom, take note of the superhero on the door.

Human Highness has also created their own version of a classic Trench cape and now they are preparing for their summer collection and for Zürich fashion week.

One of their goals for 2021 is to increase their product range and add some accessories to their selection which can uplift ones wardrobe with small yet powerful pieces.

The brand was first launched in October 2020 at Luxembourg Fashion week. First collection was called HH7. It's was a simplistic yet very significant collection that consists handwoven wool fabric that is formed into cape shape garments.

Wool fabric was handwoven by Kango Textile - Women run Estonian organization established in 2004 that unites two passionate textile designers to serve a lifelong passion for textiles.

What is unique about Human Highness brand is that most of their capes are featuring hidden suspender straps to add extra comfort, practicality and sense of empowerment. The versatile use helps you easily shed the cape as you transition from outdoors to indoors with built-in straps that suspend it for hands-free carry.

Their recent "It was never just a dress" garment is inspired by the iconic widely known campaign "It

SaKaNaNa® – A Message of Love

I create human connections through my paintings on canvas and more accurately through my hand-painted products, called SaKaNaNa® – A Message of Love.

I wanted my joyful, sexy, inspiring, incredible feminine paintings go outside and so I decided to paint directly on leather bags (or vegan on request). Each bag is a Unique Piece of Art, like a fingerprint. You can have several models of bags, but the difference will always be made by the painting on them. I have developed more than 60 themes of my "NaNas".

I believe that my paintings and my SaKaNaNa® creations can affect an immeasurable number of people and events. **I view my work as an honour, a privilege, and a mission** to do what I do every day, with love, joy, and smiles.

As of the 1 September 2020, SaKaNaNa® will contribute to both the Luxembourgish association against moral harassment and stress at work Mobbing asbl, and the Professors Without Borders International Foundation, co-created by Tessa Antony-de Nassau, by giving them a percentage of the selling price per bag and per painting sold.

Each person investing in a SaKaNaNa® and/or in a painting by Claire-Lise Backes

es will have supported women and men suffering at work from any form of harassment, and will have provided higher education opportunities for students around the world.

Just like a fingerprint, each SaKaNaNa® is unique. SaKaNaNa® subtly and elegantly disrupts the rules; it breaks the ice during encounters, meetings, attracts glances, triggers smiles and generates conversations.

SaKaNaNa® unites people, cultures, men, women, and children.

IT IS THE MAGIC OF SAKANANA® - A MESSAGE OF LOVE!

Andermatt

Four words describe the soul of the village:
luxurious, natural, magical and mystical.

To get an idea of what it means by „mystic“, you can start by watching the video series „Mystic Mountains“ on the official website www.anderstatt-swissalps.ch. Stories of enchanted mountains, of people who live there, love them, and have chosen the sustainability and harmony between innovation and tradition as pillars of urban development.

Andermatt, the pearl of the Orsera Valley at 1447 meters above sea level,

has won its bet with the future without losing its ancient soul of alpine village. It has developed into a year-round destination in recent months, with the opening of the new conference hotel Radisson Blu Reussen, with residences, its public indoor pool, its wellness and fitness area.

Then there are 8 apartment buildings and the Piazza Gottardo which is the new commercial heart of Andermatt, with its shops and restaurants.

Summer is upon us and there are great expectations.

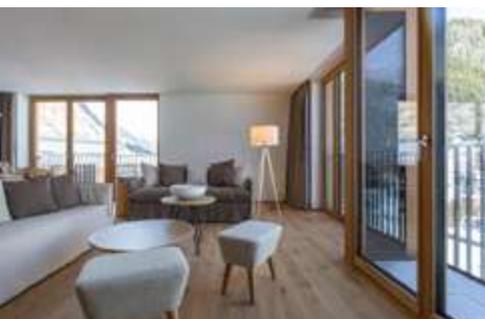

The 3-times award-winning 18-holes “best Golf Course of Switzerland”, with its spectacular mountain surroundings, allows you to play golf in a Scottish atmosphere and has quickly become one of the most sought after in all of Switzerland.

Andermatt has reached important milestones, but there is still a lot to do and more to come: the concert hall will be inaugurated on June 16th with a great concert of the Berliner Philharmonie. There are plans to start building the third hotel, a family structure soon. At least 30 other apartment houses are also designed to be built soon. Of course, the opening last December of the ski connection Andermatt and Sedrun was another milestone that allowed the promoters to experience one of the best seasons ever.

With the two Gütsch-Express (Andermatt-Gütsch) and Schneehüenerstock-Express (Oberalp-pass-Schneehüenerstock) cable cars, the operators open a new hiking and biking paradise with restaurants on both sides. In addition, another gondola from Sedrun to Cuolm is ready to widen the hiking field towards Disentis.

Andermatt is a little paradise in the Alps: investment opportunities are safe here, the quality of the construction is excellent and there are activities and options for all kinds of guests.

AWARDED BEST CLUB HOUSE IN ITALY

ITALIAN WOOD PUTTERS

100% ARTISAN MADE
ONLY THE BEST WOODS
COMPLETELY CUSTOMIZABLE
HANDMADE IN ITALY

HARDWOOD PUTTERS was born in Italy from the idea of joining the world of golf with design carpentry. Specifically, the intention is to create a range of putters that are not only functional and in line with the specific R & A and USGA, but also small objects of art. The materials used are of the highest quality and the very special weight distribution, combined with a deliberately vintage design, guarantee the customer to have in his hands a unique and extremely effective product on the green. Wood, in Hardwood Putters, is therefore not only synonymous with nature, history and return to the past, but also and above all of effectiveness.

WHY CHOOSE HARDWOOD PUTTERS:

- **Innovative technology**
- The wood provides a **softer impact** on the ball and greater control of the trajectory.
- The **greater lightness** of the wood compared to the metal allows a greater freedom in the distribution of weight, and to act in such a significant way on the overall balancing of the head. All this allows to increase the hot spot from a few millimeters of a normal putter to over

2 cm wide, forgiving in part the error.

• **A tailored suit**

It is not the customer who has to adapt but, on the contrary, it will be the customer to choose all the features he wants his putters. A custom-made suit, therefore, from the type of shaft, to the weight, to the woods used, to the inlays, etc.

• **Each putter is a unique piece**

Great care for every detail and request give the opportunity to have in your hands a unique and exclusive product.

• **It is completely handmade in Italy**

Our philosophy is to give the customer the best, and do it without compromise. The product is therefore made entirely by hand in every phase, without the aid of numerical control machines. An artisanal product in the true sense of the term.

• **An unmatched look**

The solid wood used comes from all over the world and gives the putter a unique appearance and an inimitable color.

G.C.Biella – Le Betulle, founded in 1958, has in the golf course, framed in a landscape of rare beauty, its strongest point. Over many years G.C. The course, designed by British architect John Morrison, is a typical example, rarely found in this country, of "English style" layout, very "environment-friendly". Silver birches, chestnut trees and centuries old oaks frame the eighteen holes with colourful backdrops that change with each season. Casa Fantini Lake Time is a real retreat that finds a constant evolution of its DNA in the water and in the 'Lake time' concept. Intentionally, only 11 rooms, declined in a style that leaves space for a balanced mix of design and vintage details. All rooms have an enchanting view on the San Giulio Island and Lake Orta.

The service is a la carte at 360°, every single detail is tailor-made for guests. From breakfast to the restaurant, guided by the creations of Chef Paolo Bullone, capable of enhancing local specialties and the Piedmontese culinary tradition. In mid-afternoon, tea time becomes the ideal excuse to re-lax in the lounge, read a book, slow down, accompanied by a slice of freshly baked cake.

HOTEL-CLUBHOUSE CASTELCONTURBIA

Our establishment is set in the splendid surroundings of golf club Castelconturbia, a few km away from lake maggiore and lake d'Orta and only 20 min from Milano Malpensa airport. It offers 6 single and 13 double rooms, elegantly furnished with all comforts and free wi-fi in all the club house areas. En-

joy our rich and full breakfast, in the summer served on the terrace overlooking the greens. Our restaurant's menu lists an interesting variety of traditional regional Italian specialities and international dishes with a choice of the best local wines. A 20% discount is offered to our clients on 10 neighboring golf courses.

The Golf Club Castelconturbia was founded in 1898 in Piedmont and was one of only 2 existing golf courses in Italy. The famous American architect Robert Trent Jones senior designed and built the modern 27 - hole (3x9). In perfect harmony between old trees, streams, lakes and hilly terrain this is in his opinion his most successful work. The three paths lead to the terrace of the clubhouse, a fantastic place to relax and enjoy with a wonderful view of Monte Rosa. Newly opened in 1987, this golf club hosted the Italian Golf Open 1991 and 1998 twice.

Villa Crespi

Lake Orta is the ideal destination in all seasons, a few kilometers from the big cities, without finding a journey, but finding all the suggestions.

Small, cozy and simple, Lake Orta combines many different experiences for an escape dedicated to good food, well-being and lifestyle.

The Relais **Villa Crespi**, with its Middle Eastern architecture, represents the destination on the lake where you can let yourself be carried away by the new "Love and Flavor" experience.

The rooms and suites with Moorish decorations, the awakening with à la carte breakfast in the room, to begin two days dedicated to the self, body and spirit.

The unmissable event is dinner at the **Antonino Cannavacciuolo** Restaurant, 2 Michelin stars, with the tasting menu „Route from South to North Italy“, a journey through the beautiful country through the Chef's dishes.

In the **Wellness Suite of the Relais**, guests can choose between a Vivifying, Hydra plus or Just for him facial treatment - or between Scrub & more, Pure relax (for her) and Tone up or After sport (for him).

The lake also offers the opportunity to practice numerous water sports, such as wakeboarding, various nature walks or a visit to the magnificent **village of Orta San Giulio**.

THE FAMILY IS THE CARDINE OF THIS REALITY FOR US: SINCE 1999 TO TODAY, CINZIA AND ANTONINO CANNAVACCIUOLO MANAGE THE RELAIS ET CHÂTEAUX VILLA CRESPI AND THE TWO STAR MICHELIN RESTAURANT INSIDE IT.

THE ANTONINO CANNAVACCIUOLO RESTAURANT IN VILLA CRESPI - LAKE ORTA

Inaugurated in 1999, the Antonino Cannavacciuolo Restaurant is inspired by the tradition of its land of origin, Campania, and by adoption, Piedmont, by the simplicity of home flavors, offers surprising cuisine, characterized by the use of raw materials of excellence in a harmonious fusion of past and present for an engaging and exciting Mediterranean-creative cuisine. The presentation of his dishes is the personal way of communicating himself and his art; his cooking philosophy combines two lands, the places of his history, **Piedmont and Campania**, which blend between the ingredients of his creations - Piedmont cheeses and meat and Mediterranean pasta, vegetables and fish - in a cuisine of the highest level, young and sunny, like Antonino Cannavacciuolo.

Today Antonino Cannavacciuolo is the Chef Patron of the **2 Michelin Star** restaurant (recognized in 2003 and 2006) in Villa Crespi, flanked by a kitchen brigade of young people who follow in his footsteps with daily passion and constant dedication, with the same care for guest; care that is also reflected in the direct service of the Restaurant Manager Massimo Raugi, attentive and dedicated within the three rooms of the restaurant, the enchanting veranda with a suggestive view of the centuries-old park and the modern-style lounge bar.

LOCKDOWN & FENG SHUI

Whether the house is small or large, the kitchen environment is always present, and is often the scene of confrontations, clashes and disputes.

According to Feng Shui, this environment is characterized by the energies Fire in primis and Water, which are respectively associated with the archetype of male and female energy, therefore they could be the figures involved.

Even children, especially adolescents, have been very affected by the lockdown as a limitation to their sociality. It will be very important that their spaces are respected, their growing energy will do everything to defend their territory.

In recent months, the global situation of the pandemic emergency has led us to spend most of our time at home.

For many of us this was a novelty, maybe we were used to staying out until the evening for work, and finding ourselves face to face with our own spaces in some cases was destabilizing.

Let's find out why

Let's start with being all together. It is certainly a good thing that the whole family can spend time together, but often a sort of „struggle for the territory“ is triggered.

Feng Shui is based on the observation of nature, including the animal world, which represents our deepest part, linked to instincts. Getting together to share the same space can give rise to tensions that had not previously manifested themselves, since everyone found their own space perhaps at different times of the day.

The kitchen has always been a privileged area for everyone: in the kitchen they prepare lunches and dinners, but they also go to study, do their homework on the table, have a snack, it is the focal point of the house.

Maybe ask them to renovate some corner of the room, recognizing their personality and letting them choose a new chair, a bookcase, the color of the curtains, involve them by letting them understand that you recognize their space.

Try to take advantage of this moment when you are in close contact with your home to understand what your needs really are, in FengShui it is never a question of sizes but of energy distribution.

IS YOUR HOME NOURISHED?

To understand if our home has good energy, we must first make sure that the energy (Chi) arrives! Therefore it will be essential that our front door is well kept, opens well, does not have obstacles (hanger behind, umbrella stand, shoe racks and everything that limits its opening), in the case of an apartment building, it will be important to stand out from one's neighbors, especially if on the same landing we find several doors all the same, we use a large doormat, or a plant.

The windows are also important, and must always be kept clean, since they represent the „eyes“ of the house, and are used to see what the future holds, if they are clear we will always have our objectives clear. Inside the house, the Chi must be able to circulate and nourish all the rooms, so care must be taken that there are no parts that remain outside these flows, as there can create areas of discharged energy, which will reflect a feeling of tiredness and discomfort.

Circulate the air often by opening the windows at the same time, so as to awaken the energy.

FENG SHUI AND SMART WORKING

find your space

Don't always change your position, look for a special space for yourself, you will need it to separate the home-work mood. Just a support surface for the PC, use the vertical space with a blackboard for memos and the to-do list, or a shelf on which to place the things related to your work.

desk position

Try to have your back „protected”, towards the wall (if you can't make sure your chair has a backrest), and have an open view of the room in front of you.

This is very important, because if you turn your back to the room and look at a wall, you don't know what's going on behind you, and this keeps your most instinctive side on guard, not allowing you to focus 100%. Furthermore, what you look at in front of you represents your future, especially if your work is creative, planning, you need your sight to wander and fly in search of inspiration, and not look at a blank wall.

no workspace in the room

Don't cut out the workspace in the bedroom, they are two opposite functions!

Working with the sight of the bed, the sensation would not be the best, because sleeping is the most Yin function, that is linked to the night, to rest, to the dark, and the room transmits this type of energy, you will struggle to be productive.

On the other hand, sleeping in the room where you work means that the last thing you see before closing your eyes is a desk overrun with work and you certainly wouldn't have a peaceful rest!

Work is a daily activity, linked to Yang energy, energy of activity, light, movement, for these reasons the two functions should not be put together.

It is different for the kids, who obviously have the study area in their room, their growing energy uses the night to recharge and the day to grow, the study is part of their training and growth, a piece of advice: try to outline some way the part of the room with the bed for rest and the part with the study area (or play area if it is a question of younger children).

Anton Micallef

INTERNATIONAL CORPORATE LAWYER

Dr. Micallef holds a doctorate from the University of Malta (1984) and of London (LSE, 1990). He has 30 years' experience as an international lawyer across Europe, the US and the Middle East. We had the honor of interviewing him on his last visit to Zurich.

How would you describe yourself?

I am an international corporate lawyer but the label "international legal concierge" is equally accurate. In reality my role is to assist clients doing business in various jurisdictions by co-ordinating legal and strategic advice.

What are the most important characteristics of a commercial lawyer who is successful on an international level?

In brief one requires an ability:

- to identify and exclude the irrelevant in complex transactions;
- to articulate a client's position in as precise a form as a sculptor shapes his next work because words make all the difference;
- to approach a problem in a flexible and open-minded manner;
- to speak English fluently as it is the lingua franca of today's business world and of all international legal transactions;
- to make the best possible use of time and to manage it successfully;
- to be available 24 hours a day, 7 days a week.

Are there other „secret abilities“?

Well, there is one other very important skill that an international corporate lawyer should have, even if it comes with time and personal experience. It is the ability to provide the client with a 'tailor-made service, taking into account the different foreign environments and cultures. Indeed, personal and business networks are very important.

How would you classify your clients?

My clients are intelligent successful business individuals who own and manage groups of companies in several countries and on several continents.

How do you accomplish your tasks?

My main job is usually the achievement of a goal. That goal ranges from reaching an agreement to achieving a solution to a problem, no matter how simple or complex it is and no matter how many legal systems are involved. It is my job to make it happen! Of course, it is less difficult when you have a 360 degree mindset and are able to analyze facts from different angles, especially when you have an international cultural perspective. An excellent team of professionals help me across Europe and the Middle East.

Are there any important lessons you have learnt over the past thirty years of practice?

- First, international transactions should be fashioned with a strategy in mind which does not focus solely on legal issues but one that makes commercial sense.
- Second, you have to study your counterpart on the basis of the information available to you, no matter how limited it is. The analysis must take into account background, training, successes or failures and «forma mentis».
- Third, never interrupt your interlocutor no matter how at odds you are with what is being said. Interruptions are rude and can be very expensive.
- Fourth, never lose sight of the goal. Never close all doors and windows until it is absolutely clear that no solution can be found and only experience teaches you when you can make that call.

What projects do you have for the future?

More than ever before, the world is in constant change. The Covid pandemic will have some irreversible effects on how business is conducted and the age of political correctness will leave a devastating legacy for future generations. This will mean more work for lawyers especially in international commerce.

As I approach the latter part of my career I have no plans to retire. On the contrary, I plan to open a new office in Europe but I am not rushing to disclose the jurisdiction just yet.

Reportage: MALTA

MALTA

SUPERBLY SUNNY WEATHER, ATTRACTIVE BEACHES,
A THRIVING NIGHTLIFE AND 7,000 YEARS OF HISTORY

The islands experienced a golden age in the Neolithic, the remains of which are the mysterious megalithic temples dedicated to the goddess of fertility. Later came the Phoenicians, Carthaginians, Romans and Byzantines - they all left their mark on the islands.

In the year 60 AD. Saint Paul was shipwrecked off the islands on his way to Rome and brought Christianity to Malta. The Arabs conquered the islands in 870 and left an important imprint in the Maltese language. Until 1530, Malta was part of

Sicily - the Normans, the Aragonese and other conquerors who ruled Sicily ruled the Maltese islands at the same time. Karl V. handed Malta over to the sovereign Knight and Hospital Order of St. John of Jerusalem, who ruled Malta from 1530 to 1798. The knights led Malta through a new golden age and made the country a leading player on the cultural stage of Europe in the 17th and 18th centuries. The artistic and cultural life of the islands was enriched by the presence of artists such as - among many others - Caravaggio, Mattia Preti and Favray, who were commis-

sioned by the knights to decorate churches, palaces and residences.

In 1798 Napoleon Bonaparte took over Malta from the knights on his way to Egypt. However, the presence of the French on the islands was short-lived: the English, called for help by the Maltese against the French, set up a blockade of the islands in 1800. British rule on Malta lasted until 1964, the year of independence. Malta adopted the British administrative, educational and legislative system. Malta became a republic in 1974 and a member of the European Union in May 2004.

History

Welcome to the Royal Malta Golf Club, founded initially in the ditches surrounding the capital, Valletta 132 years ago in 1888, and the 14th course to be awarded the title 'Royal' thanks to the association of at the time the then Duke of Edinburgh, Prince Alfred Ernest Albert, third son of Queen Victoria, who was based in Malta as Commander of the Mediterranean Fleet and became one of the founder members of the club.

The Course

The course offers 18 holes of golf in stunning, historical, landscaped grounds, which are maintained daily. Today at par 68, the course is a good challenge for the more experienced, without being unkind to the novice.

The apparent simplicity of the course is deceptive as it is narrow demanding accuracy off the tee and controlled approach shots as the greens are small and well bunkered. Depending on the season, there is not much water on the course but a few strategically placed water hazards lie in wait.
